## **Federalism Feminism And Multilevel Governance Gender In A Globallocal World:**

Federalism, Feminism and Multilevel Governance Marian Sawyer, 2016-04-15 Until recently few gender scholars took notice of the impact of state architecture on women's representation, political opportunities and policy achievements. Likewise, scholars of federalism, devolution and multilevel governance have largely ignored their gender impact. For the first time, this book explores how women's politics is affected by and affects federalism, whether in Australia, Canada, India, Mexico, Nigeria, Russia or the US. Equally, it assesses the gender implications of devolution and multilevel governance in the European Union, including case studies of the UK and Germany. Globally, multilevel governance is providing new arenas for women's politics. For example, CEDAW, the UN Convention for the Elimination of All Forms of Discrimination against Women, has led most governments to adopt gender equality norms, while other UN instruments have supported Aboriginal self-government. Gender scholars will find especially valuable what is revealed about the impact of political architecture on a broad range of policy issues, including gay marriage, reproductive rights and childcare. Federalism scholars will benefit from the book's wide range of cases, comparative themes and combination of gender and federalism perspectives. Written by leading experts, this book fills an important gap in both literatures.

### **Reshaping Gender and Class in Rural Spaces** Barbara Pini, Belinda

Leach, 2011. Leach and Pini bring together empirical and theoretical studies that consider the intersections of class, gender and rurality. Each chapter engages with current debates on these concepts to explore them in the context of contemporary social and economic transformations. This book will appeal to scholars working in the fields of gender, rurality, identity and class studies.

*Contours of Citizenship* Esther Ngan-ling Chow, Evangelia Tastsoglou, 2016-05-13 In an increasingly globalized world of collapsing economic borders and extending formal political and legal equality rights, active citizenship has the potential to expand as well as deepen. At the same time, with the rise of neo-liberalism, welfare state retrenchment, decline of state employment, re-privatization and the rising gap between rich and poor, the economic, social and political citizenship rights of certain categories of people are increasingly curtailed. This book examines the complexity of citizenship in historical and contemporary contexts. It draws on empirical research from a range of countries, contexts and approaches in addressing women and citizenship in a global-local world and covers a selection of diverse issues, both present and past, to include immigration, ethnicity, class, nationality, political and economic participation, institutions and the private and public spheres. This rich collection informs our understanding of the pitfalls and possibilities for women in the persistence and changes within the contours of citizenship.

### Feminist (Im)Mobilities in Fortress(ing) North America Amy Lind, Marianne H.

Marchand, 2016-04-15 Since the establishment of the North American Free Trade Agreement (NAFTA), tensions concerning immigration trends and policies, which continued to escalate at the turn of the millennium, resulted in revised national security policies in Mexico, Canada and the United States. These tensions have catalyzed the three governments to rethink

their political and economic agendas While national feminist scholarship in and on these respective countries continue to predominate since NAFTA there has been increasing feminist inquiry in a North American regional frame Less has been done to understand challenges of the hegemonies of nation region and empire in this context and to adequately understand the meaning of im mobility in people s lives as well as the im mobilities of social theories and movements like feminism Drawing from current feminist scholarship on intimacy and political economy and using three main frameworks Fortressing Writs Exclusionary Rights Mobile Bodies Immobile Citizenships and Bordered Borderland Identities a handpicked group of established and rising feminist scholars methodically examine how the production of feminist knowledge has occurred in this region The economic racial gender and sexual normativities that have emerged and or been reconstituted in neoliberal and securitized North America further reveal the depth of regional and global restructuring

**Gender Integration in NATO Military Forces** Lana Obradovic, 2016-04-15 Numerous states have passed gender integration legislation permanently admitting women into their military forces As a result states have dramatically increased women s numbers and improved gender equality by removing a number of restrictions Yet despite changes and initiatives on both domestic and international levels to integrate gender perspectives into the military not all states have improved to the same extent Some have successfully promoted gender integration in the ranks by erasing all forms of discrimination but others continue to impede it by setting limitations on equal access to careers combat and ranks Why do states abandon their policies of exclusion and promote gender integration in a way that women s military participation becomes an integral part of military force By examining twenty four NATO member states this book argues that civilian policymakers and military leadership no longer surrender to parochial gendered division of the roles but rather support integration to meet the recruitment numbers due to military modernization professionalization and technological advancements Moreover it proposes that increased pressure by the United Nations to integrate gender into security and NATO seeking standardization and consistency on the international level and women s movements on the domestic level are contributing to greater gender integration in the military Winner of the 2015 ERGOMAS Best Book in Civil Military Relations Award

*Body/State* Jen Dickinson, 2016-04-08 *Body State* brings together original essays addressing various aspects of the evolving interaction between bodies and states While each essay has different empirical and or theoretical focus authors consider a number of overlapping themes to appreciate the state s engagement with and concern about bodies Divided into five parts the first part Bodies Modified and Divided considers how the production regulation policing and maintenance of borders physical social sexual political religious etc are used to enable or constrain the physical re shaping of the body Part two Capital Bodies extends the state s concern with the flows of bodies that make up the nation to consider how they are enrolled in the complex structures of capitalist exchange that form the basis for maintaining and contesting a set of relationships between states and markets Part three Deviance and Resistance examines both how states seek to discipline non normal bodies and appreciates the capacity of changes in the socio cultural

meaning and nature of bodies to resist and or escape states Part four Sovereignty and Surveillance develops themes of deviancy and resistance by considering the impact of new technologies both on the intimate regulatory reach of states into and across bodies and on the nature of embodiment itself Finally Part five The Body Virtual examines the impact of new technologies and online spaces both on the intimate regulatory reach of states into and across bodies and on the nature of embodiment itself A varied collection of essays that address important and complex topics in a readable and creative way

**Women, Democracy, and Globalization in North America** J. Bayes,P. Begné,L. Gonzalez,L. Harder,2006-01-08 This

book examines the impact of globalization upon Canada Mexico and the United States It investigates changes in the structures and practices of federalism in public policies and practices of governance and politics and in economic livelihoods in all three nations It also provides comparisons of the effects of globalization on women s lives     *Rethinking Federalism* Karen Knop,Sylvia Ostry,Richard Simeon,Katherine Swinton,2011-11-01 Federalism is at once a set of institutions the division of public authority between two or more constitutionally defined orders of government and a set of ideas which underpin such institutions As an idea federalism points us to issues such as shared and divided sovereignty multiple loyalties and identities and governance through multi level institutions Seen in this more complex way federalism is deeply relevant to a wide range of issues facing contemporary societies Global forces economic and social are forcing a rethinking of the role of the central state with power and authority diffusing both downwards to local and state institutions and upwards to supranational bodies Economic restructuring is altering relationships within countries as well as the relationships of countries with each other At a societal level the recent growth of ethnic and regional nationalisms most dramatically in Eastern Europe and the former Soviet Union but also in many other countries in western Europe and North America is forcing a rethinking of the relationship between state and nation and of the meaning and content of citizenship *Rethinking Federalism* explores the power and relevance of federalism in the contemporary world and provides a wide ranging assessment of its strengths weaknesses and potential in a variety of contexts Interdisciplinary in its approach it brings together leading scholars from law economics sociology and political science many of whom draw on their own extensive involvement in the public policy process Among the contributors each writing with the authority of experience are Tommaso Padoa Schioppa and Jacques Pelkmans on the European Union Paul Chartrand on Aboriginal rights Samuel Beer on North American federalism Alan Cairns on identity and Vsevolod Vasiliev on citizenship after the breakup of the Soviet Union The themes refracted through these different disciplines and political perspectives include nationalism minority protection representation and economic integration The message throughout this volume is that federalism is not enough rights protection and representation are also of fundamental importance in designing multi level governments     *Gender, Politics and Institutions* M. Krook,F. Mackay,2010-12-07 Political institutions profoundly shape political life and are also gendered This groundbreaking collection synthesises new institutionalism and gendered analysis using a new approach feminist institutionalism in order to answer crucial questions about power inequalities mechanisms of continuity and the gendered limits of change     **Gender, Governance and Feminist Analysis** Christine M Hudson,Malin Rönnblom,Katherine Teghtsoonian,2017-07-14 This edited volume presents critical scholarship analysing governance practices in diverse jurisdictions in Europe and North America at multiple scales and in relation to several different arenas of policy and practice The contributors address shortcomings in the mainstream literature on governance within the discipline of political science The volume as a whole is marked by geographical and topical diversity However what the individual chapters have in

common is that each considers whether and how gender racialized identity and or other axes of marginalization are visible within the conceptualizations and or practices of governance under discussion Drawing together insights and conceptual tools from both feminist and post structuralist frameworks in analysing governance practices this volume will be of great interest to scholars and graduates who engage with feminist and or post structural analysis of policy and governance It will also be of use to critical policy scholars in anthropology geography sociology and women s studies Governance Feminism Janet Halley,Prabha Kotiswaran,Rachel Rebouché,Hila Shamir,2018-03-13 Describing and assessing feminist inroads into the state Feminists walk the halls of power Governance Feminism An Introduction shows how some feminists and feminist ideas but by no means all have entered into state and state like power in recent years Being a feminist can qualify you for a job in the United Nations the World Bank the International Criminal Court the local prosecutor s office or the child welfare bureaucracy Feminists have built institutions and participate in governance The authors argue that governance feminism is institutionally diverse and globally distributed It emerges from grassroots activism as well as statutes and treaties as crime control and as immanent bureaucracy Conflicts among feminists global North and South left center and right emerge as struggles over governance This volume collects examples from the United States Israel India and from transnational human rights law Governance feminism poses new challenges for feminists How shall we assess our successes and failures What responsibility do we shoulder for the outcomes of our work For the compromises and strange bedfellows we took on along the way Can feminism foster a critique of its own successes This volume offers a pathway to critical engagement with these pressing and significant questions Governance Feminism Janet Halley,Prabha Kotiswaran,Rachel Rebouché,Hila Shamir,2019-03-26 An interdisciplinary multifaceted look at feminist engagements with governance across the global North and global South Governance Feminism Notes from the Field brings together nineteen chapters from leading feminist scholars and activists to critically describe and assess contemporary feminist engagements with state and state like power Gathering examples from North America South America Europe Asia and the Middle East it complements and expands on the companion volume Governance Feminism An Introduction Its chapters argue that governance feminism GF is institutionally diverse and globally distributed emerging from traditional sites of state power as well as from various forms of governance and operating at the grassroots level in the private sector in civil society and in international relations The book begins by confronting the key role that crime and punishment play in GFeminist projects Here contributors explore the ideological and political conditions under which this branch of GF became so robust and rethink the carceral turn Other chapters speak to another face of GFeminism feminists finding in mundane and seemingly unspectacular bureaucratic tools leverage to bring about change in policy and governance practices Several contributions highlight the political strategic and ethical challenges that feminists and LGBT activists must negotiate to play on the governmental field The book concludes with a focus on feminist interventions in postcolonial legal and political orders looking at new policy spaces opened up by conflict

postconflict and occupation Providing a clear cross cutting critical lens through which to map developments in feminist governance around the world Governance Feminism Notes from the Field makes sense of the costs and benefits of current feminist realities to reimagine feminist futures Contributors Libby Adler Northeastern U Aziza Ahmed Northeastern U Elizabeth Bernstein Barnard College Amy J Cohen Ohio State U Karen Engle U of Texas at Austin Jacob Gersen Harvard U Leigh Goodmark U of Maryland Aeyal Gross Tel Aviv U Aya Gruber U of Colorado Boulder Janet Halley Harvard U Rema Hammami Birzeit U Palestine Vanja Hamzi U of London Isabel Cristina Jaramillo Sierra Prabha Kotiswaran King s College London Maleiha Malik King s College London Vasuki Nesiah New York U Dianne Otto Melbourne Law School Helen Reece Darren Rosenblum Pace U Jeannie Suk Gersen Harvard U Mariana Valverde U of Toronto
