Evolutionary Alternative Mainstream Microeconomics:

An Evolutionary Alternative to Mainstream Microeconomics Joseph Pluta, 2015-12-12 A dissent against the mathematically precise fairy tales of the mainstream this book offers alternatives to several of their major concepts Its author presents highly readable accounts of circular and cumulative causation the possible revival of instinct psychology business models that actually address corporate scandals how institutional inertia reduces human potential the failure of deregulation and the dubious benefits of advertising

The Economics of Science James R Wible, 2003-09-02 Science is difficult and costly to do well This study systematically creates an economics of science Many aspects of science are explored from an economic point of view The scientist is treated as an economically rational individual This book begins with economic models of misconduct in science and the legitimate normal practices of science moving on to market failure the market place of ideas self correctiveness and the organizational and institutional structures of science An exploration of broader methodological themes raised by an economics of science ends the work

Economy Studies Sam Muijnck, Joris Tieleman, 2025-10-01 The Economy Studies project emerged from the worldwide movement to modernise economics education spurred on by the global financial crisis of 2008 the climate crisis and the COVID 19 pandemic It envisions a wide variety of economics graduates and specialists equipped with a broad toolkit enabling them to collectively understand and help tackle the issues the world faces today This is a practical guide for re designing economics courses and programs Based on a clear conceptual framework and ten flexible building blocks this handbook offers refreshing ideas and practical suggestions to stimulate student engagement and critical thinking across a wide range of courses Key features are Adapting Existing Courses Plug and play suggestions to improve existing economics courses with attention to institutions history values and practical skills Teaching materials A guide through the rapidly growing range of innovative textbooks and other teaching materials Example Courses and Curricula How to design pluralist real world economics education within the practical limits of time and resources The companion website www.economystudies.com contains a wealth of additional resources such as tailor made booklets for more specific audiences additional teaching materials and links to plug and play syllabi and courses and opportunities for workshops and exchange with other economics educators

From Marx to Markets Geoffrey M. Hodgson, 2025-03-12 In this revealing and eminently readable book Geoffrey M Hodgson takes readers on an intellectual odyssey through his distinguished career and his work as one of the leading institutional and evolutionary economists Depicting his life throughout the Cold War grappling with the military and economic rivalry of two different systems to becoming an economist in the 1970s and his later venture into institutional and evolutionary economics

work acts as a critique of the basis of neoclassical microeconomics and makes a proposal for the structure of a new evolutionary theory **Cooperation and Its Evolution** Kim Sterelny, Richard Joyce, Brett Calcott, Ben Fraser, 2024-08-06 Essays from a range of disciplinary perspectives show the central role that cooperation plays in structuring our world This collection reports on the latest research on an increasingly pivotal issue for evolutionary biology cooperation The chapters are written from a variety of disciplinary perspectives and utilize research tools that range from empirical survey to conceptual modeling reflecting the rich diversity of work in the field They explore a wide taxonomic range concentrating on bacteria social insects and especially humans Part I Agents and Environments investigates the connections of social cooperation in social organizations to the conditions that make cooperation profitable and stable focusing on the interactions of agent population and environment Part II Agents and Mechanisms focuses on how proximate mechanisms emerge and operate in the evolutionary process and how they shape evolutionary trajectories Throughout the book certain themes emerge that demonstrate the ubiquity of questions regarding cooperation in evolutionary biology the generation and division of the profits of cooperation transitions in individuality levels of selection from gene to organism and the human cooperation explosion that makes our own social behavior particularly puzzling from an evolutionary perspective Bradford Books imprint

Elgar Companion to Institutional and Evolutionary Economics: L-Z Geoffrey Martin Hodgson, Warren J. Samuels, Marc R. Tool, 1994 *Handbook of Population and Family Economics* Mark Richard Rosenzweig, Oded Stark, 1997 The collection of chapters in the Handbook of population and family economics and their organization reflect the most recent developments in economics pertaining to population issues and the family The rationale contents and organization of the Handbook evolve from three premises First the family is the main arena in which population outcomes are forged Second there are important interactions and significant causal links across all demographic phenomena Third the study of the size composition and growth of a population can benefit from the application of economic methodology and tools The diversity and depth of the work reviewed and presented in the Handbook conveys both the progress that has been made by economists in understanding the forces shaping population processes including the behavior of families and the many questions empirical and theoretical that still remain **Handbook of Population and Family Economics** M.R. Rosenzweig, O.

Stark, 1997-05-23 The collection of chapters in the Handbook of Population and Family Economics and their organization reflect the most recent developments in economics pertaining to population issues and the family The rationale contents and organization of the Handbook evolve from three premises First the family is the main arena in which population outcomes are forged Second there are important interactions and significant causal links across all demographic phenomena Third the study of the size composition and growth of a population can benefit from the application of economic methodology and tools The diversity and depth of the work reviewed and presented in the Handbook conveys both the progress that has been made by economists in understanding the forces shaping population processes including the behavior of families and the many

Post Keynesian Econometrics, Microeconomics and the Theory of the Firm Sheila C. Dow, John Hillard, 2002 This is the first of two volumes celebrating Keynes contribution to economics and the development of post Keynesian economics in recent years The book is divided into three sections the first of which examines general issues including investment information labour economics and monetary theory In the second part the discussion is extended to uncertainty and addresses the associated issues of rationality trust and speculation The third and final section focuses on international economics and considers the theory of comparative advantage the fight against speculation in foreign exchange markets Tobin's transactions and the Maastricht Treaty

Trade, Technology and Economics Richard G. Lipsey, 1997 Trade Technology and Economics represents a careful selection of papers from some of the world's most influential economists of today reflecting areas in which Richard Lipsey has made fundamental contributions This important volume pays tribute to Richard Lipsey who has established a major international reputation through his wide ranging contribution to economics Focusing on certain aspects of his work the issues explored within the volume include the theory of second best unemployment inflation and the Phillips Curve trade theory customs unions and the growth of the global economy strategic behaviour in an exchange economy competition and strategic choice of technology to support collusive oligopoly equilibria and property rights and technology This collection of outstanding papers written by a distinguished group of scholars including Mark Blaug Richard G Harris Kelvin Lancaster David Card David Laidler R J Wonnacott and Michael Parkin reflects the high esteem in which Richard Lipsey is held

Not Only an Economist Mark Blaug, 1997 Mark Blaug has with good reason been described as the most widely read economist of his generation He has made important contributions to economic history cultural economics the history of economic thought the methodology of economics and the economics of education Not Only an Economist reflects the wide range of Professor Blaug's interests and includes new and recent work on Adam Smith Hayek and Keynes and studies in methodology as well as new contributions to the economics of education These are supplemented by essays arguing the economic case for subsidies to the arts The book concludes with a selection from the one hundred book reviews that he has written over the years

Vilfredo Pareto and the Birth of Modern Microeconomics Luigino Bruni, 2002 There has been a recent resurgence of interest in the work of Vilfredo Pareto one of the founders of modern economics This book reconstructs the genesis and significance of Pareto's theory of choice which is Pareto's greatest contribution to economic science and which was used by John Hicks amongst others to develop microeconomics Hicks Allen Samuelson and others acknowledged Pareto as the father of the new ordinalist microeconomics but at the same time portrayed him as confused and contradictory caught between the old and new paradigms Luigino Bruni argues that Pareto's revolution in choice theory is better understood in the context of his own philosophical framework This framework is revealed by reconstructing his dialogues with economists Pantaleoni and philosophers Vailati and Croce and by

exploring Pareto's economic theory in the light of his philosophy of science In addition Luigino Bruni argues that Pareto's contribution was different and more complex than Hicks's ordinalism and Samuelson's operationalism From this analysis emerges an image of Pareto as a man whose ideas and work was only partially fulfilled This original and sometimes unconventional book will be of great interest to economists historians of economic thought and philosophers of the social sciences

Readings in Microeconomics Tim Jenkinson, 2000 The widely acclaimed journal Oxford Review of Economic Policy publishes papers written in a non technical style by leading policy experts This second edition of Readings in Microeconomics presents a revised and updated selection of the most significant OREP papers in microeconomics chosen by the Managing Editor Dr Tim Jenkinson of Keble College Oxford Topics covered include Industrial Organization Research and Development Competition and Industrial Policy Regulation Externalities and the Environment International Trade the Labour Market and Education and Training leading policy experts discuss topical issues high standards of analysis combined with non technical writing articles selected to reflect current student course requirements The volume's extensive coverage makes the book an ideal text for second and third year students of microeconomics A companion volume in Macroeconomics is also available
