Parks,2018-11-16 There are ways of being in the world that create a flourishing life and other ways that restrict that life both for ourselves and others Listening is one of these ways of being Listening gives shape to speaking inviting other people into a dialogue that impacts our everyday lives Our acts of listening like all communication are shaped by our cultural and individual differences Unfortunately as people consider ways to ethically listen they often abide by a set of conversational rules that do not reflect or benefit their own or others unique contexts and communities In this book Parks responds to gaps in scholarship related to listening in communication research and difference in ethics scholarship Rather than imposing a rigid ethical norm that is unresponsive to diverse cultural practices her proposed listening ethic is one that is highly contextualized and pluralistic and yet dares to make normative claims Using discourse research methods that are both qualitative and quantitative Parks goes beyond describing what listening is in a given context to what ethical listening should be Empirical findings about listening from multiple communities that represent diverse ethnic gender and disability orientations are interwoven with insights from communication ethics to develop the first ever dialogic ethics of listening that is empirically based culturally grounded and normative Ten shared values emerge as guidelines for good listening in this ethic be open cultivate understanding practice authenticity engage in critical thinking invest in relationship care for the dialogue focus on what matters be intentionally present remember the ongoing story and be responsive to need These values while shared across cultures may be expressed in a diverse and sometimes conflicting communicative practices Ultimately Parks proposes that ethical listening is best conceptualized as pursuit of sustainable hospitality in our dialogic interactions within and across difference By understanding the ways that different people share listening values yet practice them differently we can learn to trust each other and attest to the hope that ethical dialogue is possible     *Addressing Difficult Situations in Foreign-Language Learning* Gerrard Mugford,2018-10-09 This book examines a neglected area of foreign language teaching and learning difficult and aggressive situations The author presents the real life experiences of language users and analyses how these individuals have dealt with confusion impoliteness and hostility in target language contexts in the United States Canada and the United Kingdom and within their home country By constructing a student centred pedagogical model around the data collected the author considers the choices available to language learners in difficult situations as well as tools for language learners to develop pragmalinguistic and sociopragmatic resources     *Drag in the Global Digital Public Sphere* Niall Brennan,David Gudelunas,2022-08-19 This volume explores drag in global online spaces as a distinct departure from the established success and limitations of RuPaul s Drag Race Centred around discourses of LGBTQ visibility and political mobilization the volume addresses how these discourses have moved beyond the increasingly limited qualities of the television series to reconfigure the parameters of drag in emerging communities and spaces By reconceiving of drag in new settings this volume uncovers the crucial social and political
