Fake News and Information Disorder in the Era of Advance Information Technology Adeyinka Tella, Oluwale O Durodolu, 2025-09-01 Information pollution on a worldwide scale is a new phenomenon brought on by the advancement of modern advanced social information technology. The long term effects of disinformation efforts are the most concerning because they are difficult to evaluate in terms of their direct and indirect effects. Information disorder also known as misinformation, disinformation, and malinformation is currently wreaking havoc in our society. It is defined as the spreading or development of inaccurate information with or without the aim to harm. Due to the extensive harm it has already done on all of these levels politically, economically, culturally, socially, spiritually, and even psychologically, immediate action is required to stop the situation. As a result, the book *Fake News and Information Disorder in the Era of Advance Information Technology* is an effort to thoroughly examine information disorder, its related challenges, the role that libraries and other information organizations can play, and to outline approaches to addressing information pollution.

Service? Learning to Advance Social Justice in a Time of Radical Inequality Alan S. Tinkler, Barri E. Tinkler, Virginia M. Jagla, Jean R. Strait, 2015-12-01 When considering inequality, one goal for educators is to enhance critical engagement to allow learners an opportunity to participate in an inquiry process that advances democracy. Service learning pedagogy offers an opportunity to advance engaged learning opportunities within higher education. This is particularly important given the power dynamics that are endemic within conversations about education, including the conversations around the Common Core, charter schools, and the privatization of education. Critical inquiry is central to the ethos of service learning pedagogy, a pedagogy that is built upon community partner participation and active reflection. Within higher education, service learning offers an important opportunity to enhance practice within the community, allowing students to engage stakeholders and youth, which is particularly important given the dramatic inequalities that are endemic in today's society.

Impacts of Leakage, Whistleblowing, and the Rise of Propaganda Lyle, Perry L., Esmail, Ashraf M., 2025-04-11 The rise of whistleblowing, the consequences of information leakage, and the increase of propaganda reshape the dynamics of trust, transparency, and power in contemporary society. In an age where digital platforms encourage the rapid spread of information, the leaking of sensitive data has spurred debates over privacy, accountability, and national security. Whistleblowers now play pivotal roles in exposing corruption, malpractice, and misconduct, though they often face personal and professional risks. The increasing weaponization of information through propaganda has made it more difficult to discern truth from manipulation, fueling political polarization and undermining public discourse. Together, these aspects highlight the complexity between transparency, secrecy, and the ethical responsibilities of those in positions of power, raising urgent questions about the future of free speech, media integrity, and the trustworthiness of information in a digital age. *Impacts of Leakage, Whistleblowing, and the Rise of Propaganda* explores the effects of misinformation, disinformation, and political propaganda on public discourse. It examines the impact of

data leaks whistleblowers and information spread on social media and online platforms within various sectors This book covers topics such as elections social media and nationalism and is a useful resource for government officials policymakers media professionals academicians researchers and data scientists **Media Literacy is Elementary** Jeff Share,2009

Researchers in a range of fields have acknowledged that childhood is a construct emerging from modernist perspectives that have not always benefited those who are younger The purposes of the Rethinking Childhood series are to provide critical locations for scholarship that challenges the universalization of childhood and introduces new reconceptualized and critical spaces from which opportunities and possibilities are generated for those who are younger Diverse histories and cultures are considered of major importance as well as issues of critical social justice Programs and Courses University of Northern Iowa,2006
