Evaluating Research Methodology For People Who Need To Read Research

Clara Mayo, Marianne LaFrance

Evaluating Research Methodology For People Who Need To Read Research:

Evaluating Research Francis C. Dane, 2011 The book is intended to help students understand and interpret research articles and how to evaluate what was done in the research It is not intended to show them how to do research but rather how to understand research articles and evaluate that research

Evaluating Research Francis C. Dane, 2017-08-01 The Second Edition offers readers a straightforward presentation of the key components of research and the skills they need to read and evaluate it The book covers a range of research that students are most likely to encounter from experimental to field research and archival to evaluation research The Second Edition features updated examples of research across disciplines new and updated content on qualitative research and conceptual statistics and a streamlined organization that better aligns with the order of information in a research article

Evaluating Research Francis C. Dane, Elliot Carhart, 2022-02-08 *Evaluating Research* 3e provides students with the skills to read and evaluate research studies Aimed at courses where it will be more important for students to read than conduct research this book covers all aspects social behavioral and health science research from the ground up as well as main types of research methods

Evaluating Research FRANCIS C. DANE, Elliot Donald Carhart, 2022-03-08 The third edition of *Evaluating Research* by Francis C Dane and Elliot Carhart provides students with the skills to read and evaluate research studies Aimed at courses where it is more important for students to develop an understanding of methods rather than conduct their own research this book covers all aspects of reading social behavioral and health science research from the basics such as the structure of reports and accessing research as well as overviews of the main types of research methods The authors emphasize critical reading skills to enable students to become experts in evaluating research so students can decide whether to incorporate that research into their future professional activities Each chapter includes an overview at the beginning and exercises at the end to reinforce the content learned Starting from the basic principles of why we do research the book moves readers through the practicalities of finding studies to the principles of the scientific method and how to break down and analyze research reports New to the third edition Understanding Checks placed throughout each chapter help students cement their learning The organization of the book is now more logical with a new chapter on accessing research up front and ending with a chapter on statistical analyses New research examples throughout including such topical examples as mindfulness college attendance and bias in healthcare help students see the relevance of research in their lives
