M. F. Hyde

First Person Plural First Person Plural:

The Phenomenology of the Second-Person Plural Sarah Pawlett Jackson, 2025-05-12 This book presents the case that there are forms of human interaction which should be understood as properly second person plural It engages with the work of Sartre Levinas and contemporary phenomenology to show that this claim is not just about grammatical forms of address but about the phenomenology and structure of our intersubjective experience While there has been plenty of recent work exploring the phenomenology of the second person singular and the first person plural we have not so far seen a systematic account of the second person plural the I yous or we you This book outlines the phenomenology of the specific structures of interlocking intersubjective reciprocity which need to be in place between multiple subjects for an interaction to be properly second person plural The author considers and defends her account from various possible objections both a conceptual worry and a range of empirical worries These objections are shown to be misguided and the thread that runs through them a problematically disembodied conception of the human subject is exposed She proceeds to offer a positive account of the second person plural supported by an understanding of subjectivity as necessarily embodied and embedded in the world This account opens an exciting path for further analyses of complex multi person intersubjectivities in small group contexts The Phenomenology of the Second Person Plural will appeal to scholars and graduate students working in phenomenology social ontology and the philosophy of intersubjectivity

The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric David Edward Aune, 2003-01-01 The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric details the variety of literary and rhetorical forms found in the New Testament and in the literature of the early Christian church This authoritative reference source is a treasury for understanding the methods employed by New Testament and early Christian writers Aune's extensive study will be of immense value to scholars and all those interested in the ways literary and rhetorical forms were used and how they functioned in the early Christian world This unique and encyclopedic study will serve generations of scholars and students by illuminating the ways words shaped the consciousness of those who encountered Christian teachings

First Person Plural Stephen E. Braude, 1995 Originally published New York Routledge 1991

Coordinating Constructions Martin Haspelmath, 2004-07-29 This is the first book on coordinating constructions that adopts a broad cross linguistic perspective Coordination has been studied intensively in English and other major European languages but we are only beginning to understand the range of variation that is found world wide This volume consists of a number of general studies as well as fourteen case studies of coordinating constructions in languages or groups of languages Africa Iraqw Fongbe Hausa the Caucasus Daghestanian Tsakhur Chechen the Middle East Persian and other Western Iranian languages Southeast Asia Lai Karen Indonesian the Pacific Lavukaleve Oceanic N I mwa and the Americas Upper Kuskokwim Athabaskan A detailed introductory chapter summarizes the main results of the volume and situates them in the context of other relevant current research
