**The Federalist Papers** Robert Berger, 2020-07-21 Why do we have this government and not another The Constitution of the United States prescribes our form of government but offers no rationale for it Is there such a rationale There is Shortly after the Constitution was created in 1787 at a convention in Philadelphia two participants in that convention along with a colleague prepared this rationale as an argument for ratification In the Federalist Papers they argued that the Constitution is an attempt to establish a government that reconciles the nature of human beings with their thirst for liberty This book presents an edited version of this argument in such a way as to be accessible to modern day

readers. Importantly, it is neither a paraphrasing nor a dumbed down version of the Federalist Papers. Rather, the vast majority of the words and phrasings used by the original authors are left intact. Note that this work is a printed version of a formerly published e-book of the same title. Beware of any other version of the Federalist Papers that uses a pirated image of the e-book cover. The argument of the Federalist Papers is structured around five broad themes: 1. a union of the States is required for our safety; 2. the Articles of Confederation are insufficient to preserve this Union; 3. an energetic government is required to address this insufficiency; 4. the proposed Constitution, prescribing a republic vested with appropriate and separated powers, satisfies this requirement; and 5. the proposed government structure is essential for attaining liberty. Within these themes, various levels of argument are introduced. At the lowest level, nearly all clauses of the Constitution are addressed. Whether this argument is convincing, readers of the Federalist Papers can decide for themselves. However, the facts that the government prescribed by the Constitution, as amended, has survived for over 230 years; that constitutional scholars regard the Federalist Papers as the premier source for justifying the Constitution; and by extension, our system of government; and that it has been referenced in countless Supreme Court decisions, suggest that the argument is convincing, indeed. Moreover, the argument provided in the Federalist Papers remains relevant to today's world. Issues associated with the purpose of government are examined in the Federalist Papers. Is the government prescribed by the Constitution the best system for protecting our rights and maximizing our well-being? One may argue that it is not. But to make such an argument, one would have to counter the argument made in the Federalist Papers. And to do that, one would have to read the Federalist Papers. Given this relevance, one may wonder why so many of today's citizens have either not read the Federalist Papers or, upon attempting to read it, have been unable to get through it. One reason is that the Federalist Papers are a difficult read for the modern reader. Alexander Hamilton, James Madison, and John Jay wrote in the style of lawyers in particular, eighteenth-century lawyers. But perhaps the greatest barrier to reading the Federalist Papers is that it is difficult to follow the argument. The purpose of this version of the Federalist Papers is to enable readers to easily follow all levels of its argument. Accordingly, the document has been edited to speed the reader's progress in moving through and clearly understanding the argument intended by the authors: 1. within sentences, some clauses and phrases have been rearranged to achieve greater proximity to their antecedents, and some double negatives are eliminated; 2. exceedingly long paragraphs are broken into digestible pieces; 3. within a single paragraph, when distinct multiple points are used to support an argument, bullets are used to distinguish those points; 4. all references to the Constitution are cited, and the Constitution itself is provided as an Appendix; and 5. some words were updated to reflect current usage.

The Federalist Papers Alexander Hamilton,James Madison,John Jay,2015-09-09 The Federalist Papers are a collection of eighty five articles and essays written by Alexander Hamilton James Madison and John Jay in favor of ratifying the United States Constitution First appearing in 1787 as a series of letters to New York newspapers this collective body of work is widely considered to be among the most important historical collections of all time Although the authors of The Federalist Papers foremost intended to influence the vote in favor of ratifying the Constitution in Federalist No 1 Hamilton explicitly set their debate in broader political terms It has been frequently remarked he wrote that it seems to have been

reserved to the people of this country by their conduct and example to decide the important question whether societies of men are really capable or not of establishing good government from reflection and choice or whether they are forever destined to depend for their political constitutions on accident and force Among the many highlights of these acclaimed essays is Federalist No 10 in which Madison discusses the means of preventing rule by majority faction and advocates for a large commercial republic This is generally regarded as the most important of the eighty five essays from a philosophical perspective and it is complemented by Federalist No 14 in which Madison takes the measure of the United States declares it appropriate for an extended republic and concludes with a memorable defense of the Constitution In Federalist No 70 Hamilton advocates for a one man chief executive and in Federalist No 78 he persuasively lays the groundwork for the doctrine of judicial review by federal courts Though centuries old these timeless essays remain the benchmark of American political philosophy As eloquently stated by famed historian Richard B Morris The Federalist Papers serve as an incomparable exposition of the Constitution a classic in political science unsurpassed in both breadth and depth by the product of any later American writer
