Evidence that Demands a Verdict, eBook Josh McDowell,1999-10-13 Among important books in the defense of Christianity this one has few equals *Evidence That Demands a Verdict* is an easy to read front line defense for Christians facing the tough questions of critics and skeptics Using secular evidences and other historical sources Josh McDowell s faith building book is a must read for every Christian Early Israel and the Surrounding Nations Archibald Sayce,2024-10-18 Delve into the rich tapestry of ancient history with Archibald Sayce s insightful work *Early Israel and the Surrounding Nations* This compelling study invites you to explore the complexities of Israel s early civilization and its interactions with neighboring cultures that shaped the ancient world As you journey through the pages consider this provocative question What truly defined the identity of ancient Israel amidst a mosaic of diverse cultures Sayce s meticulous research uncovers the intertwining narratives of politics religion and society in the early Near East But what if the lessons from these ancient civilizations still resonate today By examining the relationships between Israel and its surrounding nations this book sheds light on the enduring impact of these historical dynamics on contemporary society With a wealth of archaeological evidence and vivid descriptions *Early Israel and the Surrounding Nations* paints a vivid picture of the challenges and achievements of a formative era Sayce s eloquent prose captivates readers and encourages deeper contemplation of humanity s shared history Are you prepared to uncover the roots of early Israel and its profound connections to neighboring cultures This exploration of ancient history is not just informative it s a journey through time that enriches your understanding of the past and its relevance to the present Don t miss this opportunity to grasp the foundational stories that have shaped civilizations Will you embark on this enlightening journey through *Early Israel and the Surrounding Nations* Order your copy of *Early Israel and the Surrounding Nations* today and gain invaluable insights into the ancient world that continue to influence our lives *A Far Country, Complete* Churchill,2016-02-22 My name is Hugh Paret I was a corporation lawyer but by no means a typical one the choice of my profession being merely incidental and due as will be seen to the accident of environment The book I am about to write might aptly be called *The Autobiography of a Romanticist* In that sense if in no other I have been a typical American regarding my country as the happy hunting ground of enlightened self interest as a function of my desires Whether or not I have completely got rid of this romantic virus I must leave to those the aim of whose existence is to eradicate it from our literature and our life A somewhat Augean task I have been impelled therefore to make an attempt at setting forth with what frankness and sincerity I may with those powers of selection of which I am capable the life I have lived in this modern America the passions I have known the evils I have done I endeavour to write a biography of the inner life but in order to do this I shall have to relate those causal experiences of the outer existence that take place in the world of space and time in the four walls of the home in the school and university in the noisy streets in the realm of business and politics I shall try to set

down impartially the motives that have impelled my actions to reveal in some degree the amazing mixture of good and evil which has made me what I am to day to avoid the tricks of memory and resist the inherent desire to present myself other and better than I am Your American romanticist is a sentimental spoiled child who believes in miracles whose needs are mostly baubles whose desires are dreams Expediency is his motto Innocent of a knowledge of the principles of the universe he lives in a state of ceaseless activity admitting no limitations impatient of all restrictions What he wants he wants very badly indeed This wanting things was the corner stone of my character and I believe that the science of the future will bear me out when I say that it might have been differently built upon Certain it is that the system of education in vogue in the 70 s and 80 s never contemplated the search for natural corner stones

Fragments of a Faith Forgotten George Robert Stowe

Mead,1960-01-01 The familiar story of the origins of Christianity which we have all drunk in as it were with our The Greatest Story in the World mothers milk may be said to be almost a part of the consciousness of the Western world It is interwoven with our earliest recollections it has been stamped upon our infant consciousness with a solemnity which has repressed all questioning it has become the thing we have grown used to It has upon its side that stupendous power of inertia the force of custom against which but few have the strength to struggle But once let the ordinary man desire to know more about the greatest story in the world as all its tellers assert and he must begin the struggle Previously he has been led to believe not only that the story is absolutely unique but that it is entirely supernatural In brief if he analyses his own understanding of the story he finds it violently divorced from all historical environment a thing of itself standing alone in unnatural isolation His picture has no background Moreover he will find it very difficult to fill in The Need of a Background that background no matter how industriously he may labour He may read many books on the Life and Times of our Lord only to find that for the most part the environment has been made to fit the story and its main features have been taken from it in brief he does not feel that he has been put in contact with the natural environment for which he is seeking There are of course a few works which are not of this nature but the general reader seldom hears of them for they are generally regarded as dangerous and disturbing But even if we go deeper into the matter and make a special study of the history of the origins with the largest of libraries at our disposal we find that no writer has as yet given us a really sufficient sketch of the environment and without this it is impossible to have a real comprehension of the nature of infant Christianity and the full scope of its illumination without it we shall never understand its real naturalness and its vast power of adaptation to that environment For if we look back to the evidence of the first two The Main Means to a Recovery of the Outlines centuries of our era and to our mind no evidence with regard to the origins subsequent to this period is of any validity for an understanding of the actual state of affairs instead of one Church and one form of faith we find innumerable communities and innumerable modes of expression communities united for the living of a Life and systems striving to express the radiance of a Light In many of these communities and these expressions we find intimate points of contact with the life and faith of the best in universal religion

and a means that will help us to fill in the outlines of the background of the origins with a greater feeling of confidence than we had previously thought possible So far from finding the sharp divorcement between science or philosophy and religion or theology which has characterised all later periods of the Christian era up to our own day it was just the boast of many of these communities that religion was a science they boldly claimed that it was possible to know the things of the soul as definitely as the things of the body so far from limiting the illumination which they had received to the comprehension of the poorest intellect or confining it to the region of blind faith they claimed that it had supplied them with the means of formulating a world philosophy capable of satisfying the most exacting intellect Never perhaps has the world witnessed more daring efforts to reach a solution of the world problem than were attempted by some of these mystic philosophers and religious scientists That their attempts are for the most part incomprehensible to the modern mind is partly owing to the fact that our record of them is so imperfect and partly due to the natural impossibility of expressing in human language the stupendous realities to which they aspired nevertheless their heaven storming when we can understand its nature is a spectacle to move our admiration and if we cast aside all prejudice make us bow our heads before the Power which inspired their efforts They strove for the knowledge of God the science The Gnostic Schools of realities the gnosis of the things that are wisdom was their goal the holy things of life their study They were called by many names by those who subsequently haled them from their hidden retreats to ridicule their efforts and anathematise their doctrines and one of the names which they used for themselves custom has selected to be their present general title They are now generally referred to in Church history as the Gnostics those whose goal was the Gnosis if indeed that be the right meaning for one of their earliest existing documents expressly declares that Gnosis is not the end it is the beginning of the path the end is God and hence the Gnostics would be those who used the Gnosis as the means to set their feet upon the Way to God The question which at once presses itself upon Where to Look for their Origins the attention of the student of history is Whence did these men come Did they arise suddenly in the midst of a world that cared not for these things were they entirely out of touch with the past had they no predecessors By no means those who so bitterly opposed them who boasting themselves to be the only legitimate inheritors of the illumination of the Christ in their most angry mood stigmatised the Gnostics as the first born of Satan may help us to set our feet in the direction where we shall find some materials on which to base an answer In less bitter mood the Church Fathers tell us that the doctrines of the Gnosis are of Plato and Pythagoras of Aristotle and of Heracleitus of the Mysteries and Initiations of the nations and not of Christ Let us then try for a brief space to follow this lead and fill in some rough outlines of the background of the Gnosis we shall then be better able to say whether or no we join our voices to the hue and cry of the heresy hunters In what follows we shall only attempt the vaguest indications of the vast field of research The Nature of the Field to be Surveyed in which the student of the Christian origins has to labour before he can really appreciate the nature of the soil in which the seed was sown The political history and social conditions of the time have to be carefully studied and

continually borne in mind but the most important field to be surveyed is the nature of the religious world especially during the three centuries prior to our era How is it possible we ask ourselves as we gaze upon the blendings of cult the syncretism of theogonies and cosmogonics and the mixtures of faith which abounded in these centuries to separate them into their original elements The problem seems as hopeless as the endeavour to trace the mixtures of races and sub races of nations and families which were the material means of these blendings of cult and religion Where can we begin For if we begin where known history fails as is usually the case and imagine that we have herereached a state of things primitive we are forced to be ever revising our hypotheses by each new arch ological and ethnological discovery Tribes which we have regarded as primitive savages are found to be the decaying remnants of once great nations their superstitions and barbarous practices are found blended with the remnants of high ideas which no savagery could evolve where shall we seize a beginning in this material of protean change Surely we cannot trace it on the lines of material evolution alone May it not be that there is the soul of a people as well which has to be reckoned with Just as the bodies of men are born from other The Soil of the Field bodies so are nations born from nations But if the physical heredity of a man is difficult to trace since the farther it is pushed back the more it ramifies far more difficult is the heredity of a nation for whereas a man has but two parents a nation may have many and whereas the bodies of a man s parents at death are hidden away to decay in the earth the bodies of nations decay in the sight of all and persist mingled with their children and grand children and all the family tree which they share with other nations Nations may have certain distinguishing characteristics but they are not individualised in the same way as a man is individualised and the problem of their inner heredity is more difficult to solve than even that of the nature of the animal soul for it is on a vaster scale

The God Question Andrew Pessin,2009-06-01 Join the greatest debate in the history of creation Does God exist Without doubt the greatest question to face humanity in its history the controversy rages on today with a recent spate of books on both sides of the divide However this debate is not a new phenomenon For centuries our greatest philosophers from Aristotle to Nietzsche have sought to clarify the idea of a Supreme Being and examine the unique conundrums that He raises Revealing the thoughts of history s biggest philosophers on the biggest question of all The God Question will help you make your own mind up Presenting pithy arguments from the faithful atheistic and downright heretical Pessin s light hearted prose will give you a captivating insight into a wide array of God related puzzles whether or not you are religiously inclined

God Without Religion William Arthur,1887

God Reza Aslan,2017-11-07 NEW YORK TIMES BESTSELLER The author of *Zealot* explores humanity s quest to make sense of the divine in this concise and fascinating history of our understanding of God In *Zealot* Reza Aslan replaced the staid well worn portrayal of Jesus of Nazareth with a startling new image of the man in all his contradictions In his new book Aslan takes on a subject even more immense God writ large In layered prose and with thoughtful accessible scholarship Aslan narrates the history of religion as a remarkably cohesive attempt to understand the divine by giving it human traits and emotions

According to Aslan this innate desire to humanize God is hardwired in our brains making it a central feature of nearly every religious tradition As Aslan writes Whether we are aware of it or not and regardless of whether we re believers or not what the vast majority of us think about when we think about God is a divine version of ourselves But this projection is not without consequences We bestow upon God not just all that is good in human nature our compassion our thirst for justice but all that is bad in it our greed our bigotry our penchant for violence All these qualities inform our religions cultures and governments More than just a history of our understanding of God this book is an attempt to get to the root of this humanizing impulse in order to develop a more universal spirituality Whether you believe in one God many gods or no god at all God A Human History will challenge the way you think about the divine and its role in our everyday lives Praise for God Timely riveting enlightening and necessary HuffPost Tantalizing Driven by Reza Aslan s grace and curiosity God helps us pan out from our troubled times while asking us to consider a more expansive view of the divine in contemporary life The Seattle Times A fascinating exploration of the interaction of our humanity and God Pittsburgh Post Gazette Aslan s slim yet ambitious book is the story of how humans have created God with a capital G and it s thoroughly mind blowing Los Angeles Review of Books Aslan is a born storyteller and there is much to enjoy in this intelligent survey San Francisco Chronicle **God in History** John Cumming,1853 **God in Proof** Nathan Schneider,2013-06-10 In this tour of the history of arguments for and against the existence of God Nathan Schneider embarks on a remarkable intellectual historical and theological journey through the centuries of believers and unbelievers from ancient Greeks to medieval Arabs to today s most eminent philosophers and the New Atheists Framed by an account of Schneider s own unique journey God in Proof illuminates the great minds who wrestled with one of history s biggest questions together with their arguments bringing them to life in their time and our own Schneider s sure handed portrayal of the characters and ideas involved in the search for proof challenges how we normally think about doubt and faith while showing that in their quest for certainty and the proofs to declare it thinkers on either side of the God divide are often closer to one another than they would like to think God J. Ray Hunt,2002-10 God J. Ray Hunt,2006-06-30 About the Holy Bible Robert G. Ingersoll,2013-10-23 The words blasphemy evil and pagan were hurled at Robert Ingersoll by the organized Christian Church from the moment he made his first declaration from the pulpit And in spite of their unanimous rejection his words live on through today As shown in this text his prose was terse biting cutting and slightly arrogant for he felt it was his purpose to bring the sacred scriptures into the glare of a more realistic realm Deemed as being written hundreds of years after the fact he saw the Bible as being nothing more than an exaggerated series of folk tales that were handed down by a handful of people who for their own unity and importance self proclaimed themselves as being God s chosen ones While Mr Ingersoll offers no scientific proof that his statements have validity other than simple common sense he asks the questions that have triggered the doubt and anger that religionists have repressed throughout the centuries From Galileo though Darwin through Ingersoll and on to Richard Dawkins all have the following premises Truth is

found only through active questioning Faith is generally believing something that has no basis in reality Liberty is my religion Liberty of hand and brain of thought and labor liberty is a word hated by kings loathed by popes **God Without Religion**

- Second Edition Brian S. Gooch, 2015-12-05 Jesus was born into a religious heritage in the midst of a religious society However he deemphasized religious practices putting them in their proper place perspective and priority Alternatively he emphasized and demonstrated a deep spiritual connection to others and a life of obedience and conforming to the will of The Almighty God Jesus did not start a religion The apostle wrote They were first called Christians at Antioch and If any of you suffer as a Christian he should not be ashamed but instead glory in that name This is not reference to a religion called Christianity but religious people called them Christ like Christian because they Jesus followers were foolish enough to love the unlovable to prefer the well being of others above themselves to bring words of hope in hopeless situations and to love God in the same way Jesus demonstrated love towards God with all of his heart soul and life The qualifications for calling oneself Christ like or Christian pale in the true light of what it means to be like Jesus full of the spirit of God full of compassion and dedicated to doing God s will Without theological opinions and religious gymnastics what did Jesus and his followers reportedly say think teach and live Is it Christ like to rejoice over the death of another person any person to hate any group of people because of their practices lifestyle occupation or disposition towards others or ourselves Is it Christ like to be prejudice racist hateful murderous vengeful indifferent unthankful self centered or religious Read for yourself **The**

God in History; And, God in Science John Cumming, 2012-08-01 Unlike some other reproductions of classic texts, 1. We have not used OCR (Optical Character Recognition) as this leads to bad quality books with introduced typos. 2. In books where there are images such as portraits, maps, sketches, etc., we have endeavoured to keep the quality of these images so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

The Great Perhaps Burton F. Porter, 2015-04-16 God created man in his own image, but did man perhaps return the compliment? The question of God's existence has been a pivotal issue for every civilization. Those with faith in God want assurance that their belief is justified, and atheists want confirmation that God is nowhere to be found. When we reflect on religion, we want to know the reasons for belief in God or whether belief is only a comforting delusion. In an age of science, will religion persist or will it be edged out of our consciousness and become a historical curiosity? Burton Porter approaches the notion of God in an open yet critical way, examining the argumentation used by centuries of human society to support or reject the existence of God. With minimum assumptions and maximum objectivity, Porter debates whether the religious view does, in fact, diagram reality. He examines the roles that God and religion have played in the ethics, art, and actions of many diverse cultures to conclude that, at the very least, the consideration of the existence of a higher power is fundamental to us all.

Has the Biblical Text Been Corrupted over the Centuries? Jonathan Morrow, 2014-09-01 From the complete book: Can a thoughtful person today seriously believe that God wrote a book? There are an unprecedented number of sophisticated attacks on the origin, credibility, and reliability of the Bible. It can be difficult to know what to say when skepticism and secularism take over so many conversations. Additionally, confusion and doubt about the Bible being God's Word are becoming as common inside the church as they are in the broader culture. The purpose of this book is to respond to these challenges, sound bites, and slogans and give people confidence that the Bible can be trusted and that it matters for our lives because God really has spoken.
