**Paradox** Jane Weir, 2005-05 In sharp contrast to today s foreboding politically correct posturing there is a formula that measures all things in the same precise way that we know with certainty that two plus two equals four However the world continues to search for this universal truth until it faces its old enemy head on and looks him straight in the eye Paradox The Rejected Cornerstone vindicates this marvelous prototype proving emphatically once and for all that a paradox is not a contradiction as it so easily appears Author Jane Weir details the composition of the paradox and for the first time discloses its incredible logistical and mathematical laws Embark on an eye opening journey into the mysterious and obscure realm of truth Understanding will be yours once you observe this ubiquitous equation revealing life s universal blueprint Therefore it is with great hope that the educated and uneducated alike will come to see that life is not a contradiction as is commonly perceived It is instead a paradox not an accidental and misfortunate stumbling block but a magnificently complex creatively designed information source
