

clockwise to brighten). Headlight high or low beam is selected by depressing the step-on beam switch on the left side of the toe board.

**Head Lock and Latch.** Pull out the head lock "T" handle to unlock the head. A second safety latch under the front end of the head must be released before the head can be raised.

**Seat Adjustment.** The most comfortable position is accomplished by pressing the seat lock to the left and sliding the seat forward or backward. When you release the lock handle the seat locks in the position selected. A seat track spring assists in moving the seat forward.

**The windshield wiper** speed is controlled by how far the wiper control knob is turned clockwise. Turn the knob all the way right to operate the wipers at full speed.

**Door and Window Controls.** The operation of the door controls and window regulators is as shown in the illustration at the bottom of page 6.

**Trunk Locking Cam.** Insert the key in the lock to gain access to the rear luggage compartment. The lid is counterbalanced to stay in the raised position. Just close the lid firmly to lock it.

**The instrument cluster** groups all the operational instruments directly before your eyes. Form the habit of frequent observation of all the instruments as you drive. They will show how the engine and other units are operating. For night driving they and the various control knobs are illuminated by lights which can be adjusted to the proper intensity to suit your need.

**Speedometer—Odometer.** At night when the lights are on, only the portion of the speedometer dial near the needle is illuminated. The odometer (mileage recorder) indicates the total accumulated mileage.

**The oil pressure gauge** shows the oil pressure to the engine bearings. It does not indicate the quantity or quality of oil in the crankcase. If no pressure is indicated, stop the engine at once and determine the cause. Operation with no oil pressure will cause serious damage.

**The temperature gauge** is an electric thermometer which indicates the temperature of the engine coolant.
