For a Libertarian Communism Daniel Guérin, 2017-11-01 In his foreword to an earlier collection of essays on libertarian communism Daniel Guérin addressed himself to younger people alienated from ideologies and isms shorn of any meaning by an earlier generation and particularly from socialism which has so often been betrayed by those who claimed to speak in its name and which now provokes an understandable skepticism In this collection of essays written between the 1950s and 1980s and published here for the first time in English Guérin not only provides a critique of the socialist and communist parties of his day he analyzes some of the most fundamental and pressing questions with which all radicals must engage He does this by revisiting and attempting to draw lessons from the history of the revolutionary movement from the French Revolution through the conflicts between anarchists and Marxists in the International Workingmen's Association and the Russian and Spanish revolutions to the social revolution of 1968 These are not just abstract theoretical reflections but are informed by the experiences of a lifetime of revolutionary commitments and by his constant willingness to challenge orthodoxies of all kinds Far from allowing ourselves to sink into doubt inaction and despair the time has come for the left to begin again from zero to rethink its problems from their very foundations The failure of both reformism and Stalinism imposes on us the urgent duty to find a way of reconciling proletarian democracy with socialism freedom with Revolution

Metropolis, London David Feldman, Gareth Stedman Jones, 1989 The post big bang City docklands racist hooliganism the new underclass trade union defeats the mounting disparities of the north

south divide These social and political images of late twentieth century London seem to mark a decisive break with the past But as Metropolis demonstrates the spectacle of London in the 1980s is not as novel as it might seem What is striking about London's history since 1800 are the continuities and recurrences which punctuate it *Syndicalism and the Transition to Communism* Ralph Darlington, 2013-06-28 During the first two decades of the twentieth century amidst an extraordinary international upsurge in strike action the ideas of revolutionary syndicalism developed into a major influence within the world wide trade union movement Committed to destroying capitalism through direct industrial action and revolutionary trade union struggle the movement raised fundamental questions about the need for new and democratic forms of power through which workers could collectively manage industry and society This study provides an all embracing comparative analysis of the dynamics and trajectory of the syndicalist movement in six specific countries France Spain Italy America Britain and Ireland This is achieved through an examination of the philosophy of syndicalism and the varied forms that syndicalist organisations assumed the distinctive economic social and political context in which they emerged the extent to which syndicalism influenced wider politics and the reasons for its subsequent demise The volume also provides the first ever systematic examination of the relationship between syndicalism and communism focusing on the ideological and political conversion to communism undertaken by some of the syndicalist movement's leading figures and the degree of synthesis between the two traditions within the new communist parties that emerged in the early 1920s *Whitaker's Books in Print* ,1998 **New Statesman Society** ,1991 **The British National Bibliography** Arthur James Wells, 2004

Eco-Socialism David Pepper, 2002-09-26 First Published in 2004 Capitalism continues to degrade ecosystems and create social injustice The 1992 Earth Summit demonstrated that the powerful vested interests behind Western capitalism have no intention of radically changing their goals and methods to help create an environmentally sound or socially just global society In order to confront this the green movement must now develop coherent eco socialist politics People must control their own lives and their relationship with the environment Drawing on Marx Morris Kropotkin and anarcho syndicalism David Pepper presents an anthropocentric analysis of the way forward for green politics and environmental movements Establishing the elements of a radical eco socialism this study rejects biocentrism simplistic limits to growth and over population theses whilst exposing the deficiencies and contradictions of green approaches to post modern politics and deep ecology Eco socialism should provide students of ecology politics and the environment with a thorough introduction to the ideologies of Marxism anarchism and deep ecology and the ways these can be synthesized into a radical green politics **Bibliographic Guide to Conference Publications** New York Public Library. Research Libraries, 1991 Vols for 1975 include publications cataloged by the Research Libraries of the New York Public Library with additional entries from the Library of Congress MARC tapes British Book News ,1989 **British Book News** British Council, 1989 Includes no 53a British wartime books for young people Whitaker's Book List ,1989 **Canadian Books in Print 2002** Marian Butler, 2002-02 **New Statesman and**
