Forbidden Knowledge The Gap Into Vision The Gap Book 2:

To Be Continued Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995. Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series. *To Be Continued Second Edition* maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles, publishers, publication dates, genre categories, annotations, and subject terms. Among the genre categories that can be found in *To Be Continued* are romance, science fiction, crime, novel, horror, adventure, fantasy, humor, western, war, Christian fiction, and others. *Science Fiction and Fantasy Literature, 1975-1991* R. Reginald, Mary Wickizer Burgess, Daryl Furumi Mallett, 1992 Science fiction constitutes one of the largest and most widely read genres in literature and this reference provides bibliographical data on some 20 000 science fiction, fantasy, and horror fiction books as well as nonfiction monographs about the literature. A companion to Reginald's *Science Fiction and Fantasy Literature 1700-1974* (Gale, 1979) the present volume is alphabetically arranged by approximately 10 000 author names. The entry for each individual work includes title, publisher, date, and place published, number of pages, hardbound or paperback format, and type of book (novel, anthology, etc.). Where appropriate, entries also provide translation notes, series information, pseudonyms, and remarks on special features such as celebrity introductions. Includes indexes of titles, series, awards, and doubles for locating volumes containing two novels. Annotation copyright by Book News Inc, Portland, OR. *Sequels* Janet Husband, Jonathan F. Husband, 1997 *Sequels* the most popular and long lasting guide to novels in series returns with greatly expanded series listings. Mysteries continue to be a mainstay with fantasy, science fiction, and romance listings plus non genre fiction selections from authors such as Edward Abbey and Lawrence Durrell. The authors have carefully sifted through a growing group of series to select those most likely to be available in a medium sized public library, weeding out esoteric, obscure, and less popular series. This classic reference includes hundreds of annotated series, title, and subject indexes, and suggestions for reading order. Library professionals will find *Answers to the perennial question: What should I read next?* Guidance on the chronology of a series. Easy to use tools to identify novels by character, setting, and author. The definitive resource for novels in series. Including series started since 1989 and updated through 2007. *Sequels* will be the most complete resource for general readers and library patrons as well as readers advisors, public university and high school reference librarians, acquisition and collection management librarians, and even bookstore staff and book reviewers. The expanded *Sequels* 4th edition will become the RA and reference librarian's resource of choice. **Science Fiction, Fantasy & Horror**, 1991 A comprehensive bibliography of books and short fiction published in the English language. **The Cumulative Book Index**, 1991 A world list of books in the English language. **International Who's Who of Authors and Writers 2004** Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature.
