

A movie poster for 'South of Hope Street'. The background is a dark, green-tinted landscape with jagged, mountain-like silhouettes. In the foreground, four people are standing on a rocky, uneven surface. From left to right: a person with long hair and a beard, wearing a dark jacket and a patterned scarf; a person with blonde hair, wearing a dark jacket; a person with dark hair, wearing a dark jacket; and a person with dark hair, wearing a dark jacket. The title 'SOUTH OF HOPE STREET' is written in large, white, sans-serif capital letters on the right side of the poster. The text is arranged in three lines: 'SOUTH' on the top line, 'OF' on the middle line, and 'HOPE STREET' on the bottom line. The overall mood is mysterious and dramatic.

Douglas A. Vakoch,2021-04-29 Caught as we are in a grave climate crisis that seems more irreversible with every passing year our literary portrayals of the future often feature the dystopian collapse of the world as we know it Science fiction explores how we got here while pointing toward a more hopeful path forward From an ecofeminist perspective a core cause of our current ecological catastrophe is the patriarchal domination of nature playing out in parallel with the oppression of women As an alternative to dystopian futures that seem increasingly inevitable ecofeminist science fiction helps us conjure utopias that promote environmental sustainability based on more egalitarian human relationships Dystopias and Utopias on Earth and Beyond Feminist Ecocriticism of Science Fiction explores the fictional worlds of such canonical novelists as Margaret Atwood Octavia Butler Ursula K Le Guin Doris Lessing and Joan Slonczewski as well as those of lesser known science fiction writers as they collectively probe humanity's greatest existential threats Contributors from five continents provide compelling analyses of far future dystopias on Earth that are all too easy to imagine becoming reality if humankind's current trajectory continues as well as provocative insights into science fiction utopias set on idyllic planets orbiting distant stars which offer liberatory alternatives that might someday be actualized in the real world By examining the links between the destruction of the environment and the domination of women Dystopias and Utopias on Earth and Beyond provides the tools to counteract those intertwined oppressions helping create a foundation for a truly habitable world *Contemporary Dystopian Fiction for Young Adults*

Balaka Basu,Katherine R. Broad,Carrie Hintz,2013-05-02 Winner of the Children's Literature Association Edited Book Award From the jaded wired teenagers of M T Anderson's Feed to the spirited young rebels of Suzanne Collins The Hunger Games trilogy the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings As the dark universes of YA dystopias continue to flood the market Contemporary Dystopian Fiction for Young Adults Brave New Teenagers offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon With its capacity to frighten and warn dystopian

writing powerfully engages with our pressing global concerns liberty and self determination environmental destruction and looming catastrophe questions of identity and justice and the increasingly fragile boundaries between technology and the self When directed at young readers these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood This collection enacts a lively debate about the goals and efficacy of YA dystopias with three major areas of contention do these texts reinscribe an old didacticism or offer an exciting new frontier in children s literature Do their political critiques represent conservative or radical ideologies And finally are these novels high minded attempts to educate the young or simply bids to cash in on a formula for commercial success This collection represents a prismatic and evolving understanding of the genre illuminating its relevance to children s literature and our wider culture

*Language in Modern Dystopias* David W. Sisk, 1997-12-30 As the 20th century has progressed dystopian fiction has gained power as utopian fiction has become increasingly irrelevant As an overtly didactic genre dystopia extrapolates terrifying near futures from disturbing current trends In order to quickly create an atmosphere that is at once plausible and terrifying dystopian writers almost universally turn to an idea certain to generate both fear and sympathy in the reader the dual concept of language as the primary tool by which repressive societies stifle dissent and simultaneously as the primary weapon used by rebels bent on understanding resisting and countering such oppression This volume traces the evolution of language's centrality in 20th century dystopias in English including *Brave New World* 1984 *A Clockwork Orange* *The Handmaid's Tale* *Native Tongue* *The Judas Rose* and *Riddley Walker* The brilliance of Orwell's 1984 has led to a backlash many critics have smugly asserted that as the year 1984 has passed without taking the shape of his fiction Orwell's novel and the dystopia in general have lost their affective power and relevance But as the 20th century progresses dystopian fiction has gained power as utopian fiction has become increasingly irrelevant As an overtly didactic genre dystopia extrapolates terrifying near futures from disturbing current trends In order to quickly create an atmosphere that is at once plausible and terrifying dystopian writers almost universally turn to an idea certain to generate both fear and sympathy in the reader the dual concept of language as the primary tool by which repressive societies stifle dissent and simultaneously as the primary weapon used by rebels bent on understanding resisting and countering such oppression This volume traces the evolution of language's centrality in 20th century dystopias in English beginning with Huxley's *Brave New World* and Orwell's *1984* As dystopian fiction has branched out to embrace multiple viewpoints and agendas the emphasis on language has remained at the center of the dystopian impulse These include the first person narrative dystopia such as Anthony Burgess's *A Clockwork Orange* the feminist dystopia such as Margaret Atwood's *The Handmaid's Tale* and Suzette Elgin's *Native Tongue* and *The Judas Rose* and the post apocalyptic mythic dystopia such as Russell Hoban's *Riddley Walker* While other scholars have often alluded to the importance of language within specific literary dystopias this book transcends earlier studies by presenting a generic model of dystopian language use

*Science Fiction, Canonization, Marginalization, and the Academy* Gary Westfahl, George Slusser, 2002-01-30 Science fiction occupies a peculiar place in the academic study of literature At a time when the canon is being consciously expanded and diversified and when there is growing scholarly interest in technology and popular culture works of science fiction are nonetheless marginalized by the academy So too many works of science fiction engage recognized canonical texts such as the *Odyssey* yet traditionalists within the academy have

largely shunned the serious study of science fiction In this book expert contributors examine the traditional and continuing tendency to exclude science fiction from the literary canon In exploring this topic the book addresses many broader issues such as the nature of canon formation the role of journals in legitimizing academic inquiry and the cultural politics of academic gatekeeping **Science-fiction Studies** ,2006 The Rough Guide to Sci-fi Movies John Scalzi,2005 This guide explores cinema s fascination with space exploration time travel and fantastical worlds and tells the stories behind the movies that have been expanding our universe since film began *Time machine: Utopia or Science Fiction* Kristijan Zrinski,2013-06-26 Seminar paper from the year 2012 in the subject Didactics for the subject English Literature Works grade 3 0 University of Trier language English abstract This term paper deals with the question which literary genre does The Time Machine by H G Wells fits best into Should it be seen as a dystopian novel or should it be rather classified as a science fictional one and why is it so hard to classify As the novel shows characteristics for either genres the novel has to be analysed accurately In order do so and find an answer to the main question I will point out and examine relevant passages in the text which will help classifying Wells work Therefore it is essential to first of all define both literary genres These definitions are to include the origin of the genre main characteristics as well as appropriate background information As already mentioned the definitions will be followed by an in depth analysis of significant text passages Finally my conclusion is intended to sum up the most important findings and aims to present a classification based on the analysis in the main part *Making the Journey* Leila Christenbury,2006 Making the Journey is a staple of secondary English methods courses and teacher libraries because it not only provides practical advice on what to do in the classroom and how to act but also offers a realistic but optimistic sense of what it means to embrace the practice of good teaching Now trusted educator writer and researcher Leila Christenbury has returned with a remarkable new edition of her classic The third edition of Making the Journey will be both refreshingly new and satisfyingly familiar to those who ve come to rely on Christenbury s wisdom and uncommon common sense Every chapter has been revised and updated with new examples the latest research and stories from today s classrooms Even more important Christenbury has devoted new sections to discussing instructional and political topics crucial to the contemporary teacher including supporting English language learners developing students ability to write on demand meeting the challenge of high stakes standardized testing balancing depth of coverage with breadth in standards based curricular planning creating tests and other assessments that align with curricular goals and provide useful information for subsequent instruction engaging students reading interests through nontraditional real world genres like graphic novels teaching writing and media literacy through digital age innovations such as blogs and WebQuests navigating the politics of school while remaining an activist professional With the latest smartest strategies techniques and ideas as well as Leila Christenbury s trademark pragmatism and know how the third edition of Making the Journey will be an indispensable guide for anyone just starting their own journey into teaching or for anyone already on their way **Magill's**
