*SciFi in the Mind's Eye* Margret Grebowicz, 2007 From the Publisher What does our favorite science fiction tell us about the culture of science What do stories of cyborg women and genetic engineering show us about how science and values interact and how science and politics affect each other In *SciFi in the Mind s Eye* leading scholars look at the way science fiction informs and inspires contemporary research in science and technology and how scientific breakthroughs spur authors on to yet more creative science fiction narratives Alongside investigations into the meaning of science fiction *SciFi in the Mind s Eye* gives us previously unpublished interventions by acclaimed science fiction authors L Timmel Duchamp Nicola Griffith Nancy Kress Terry Bisson and Stanislaw Lem      **The New Encyclopedia of Science Fiction** James E. Donelson, Alleen Pace Nilsen, 1997 With 140 fewer pages than the fourth edition the fifth obviously has been tightened it's partly in the format with narrower margins and less white space Otherwise some text has been rephrased or rearranged and topics for example adolescent psychology given shorter shrift Coverage of Holocaust literature has been expanded and discussion of problem novels improved Sports books have been dumped in with humor movies and other stuff including humorous poetry which it seems the authors feel is the only kind teens read for pleasure other types of poetry as well as short stories and drama are relegated to the English classroom coverage of which has been enlarged The chapter on sf and fantasy is good on historical aspects but weak on today's writers A short list of Internet listserves and Web sites has been incorporated as part of using YA literature in the library Once again updating of appendixes seems spotty Nevertheless this is useful as a resource for youth librarians and a tool for teaching YA literature Sally Estes      **The Next Three Futures** W.
