Bryan Betz, 2018-04-12 Table Talk is conversation based learning This book is designed to help teachers create an atmosphere conducive to

conversation by making the language spoken in class both comprehensible and engaging and build student confidence in answering questions This will allow students to practice speaking English without the fear of being on stage With Table Talk students can spend time formulating their conversations self reflect and self assess have real conversations with peers of differing skill levels and in the end feel confident in their abilities This will encourage participation by making sure everyone get a turn to use their ability in a way they are comfortable When something can be learned without effort great effort has gone into its teaching This book has done the hard work for you English conversation in an academic setting more closely resembles an interview or an interrogation rather than a relaxed and free flowing exchange of information ideas and opinions The purpose of Table Talk Is to create an enjoyable space for students to talk with each other about the big and not so big questions of life This book gives them the opportunity to explore the big questions articulate their thoughts and engage with the opinions of others At any point during the discussion should students come up with a question on the spot they are encouraged to ask it to everyone This will allow students to practice speaking English using a mix of lighter questions and some that are more challenging The beauty of this is that the students choose the questions and set the agenda If a question is discussed for a long time do not worry let the conversation flow You may find that as students talk new questions come up naturally It is important that each student feels able to contribute as much or as little as they wish Enjoy
