It contains reflections on the complex interplay between the unifying characteristics of monolingual and multilingual programmes and their often diverging local and contextual interpretations and implementations. In addition, it describes how migration pedagogy has become a catalyst for discussing the ideological and power aspects of language learning and how a hegemony/critical attitude needs to become an integral part of classroom language learning and communicating. In this context, the deliberate development of Teachers' Awareness of Language Knowledge (TALK) through a variety of supportive measures is considered to be of central pedagogical importance. Principles and practical applications of TALK for the classroom are discussed and evaluated. *The Oxford Handbook of Turkish Politics* Güneş Murat Tezcür, 2022 The study of politics in Turkey: new horizons and perennial pitfalls.
