Figlio,Cecilia Elena Rouse,2008 We study the effects of the threat of school vouchers and school stigma in Florida on the performance of low performing schools using student level data from a subset of districts Estimates of the change in school level high stakes test scores from the first year of the reform are consistent with the early results used by the state of Florida to claim large scale improvements associated with the threat of voucher assignment However we also find that much of this estimated effect may be due to other factors While we estimate a small relative improvement in reading scores on the high stakes test for voucher threatened stigmatized schools we estimate a much smaller relative improvement on a lower stakes nationally norm referenced test Further the relative gains in reading scores are explained largely by changing student characteristics We find more evidence for a positive differential effect on math test scores on both the low and highstakes tests however the results from the lower stakes test appear primarily limited to students in the high stakes grade Finally we find some evidence that the relative improvements following the introduction of the A Plan by low performing schools were more due to the stigma of receiving the low grade rather than the threat of vouchers Abstract Show What You Know on the 10th Grade FCAT ,2001-11 **Roadmap to the Grade 10 FCAT Mathematics** Princeton Review,2002-11 Prepares students for the Florida Comprehensive Assessment Test FCAT The Next Phase in Heritage Language Studies: Methodological Considerations and Advancements Fatih Bayram,Maki Kubota,Sergio Miguel Pereira Soares,2024-03-27 Over the past three decades studies investigating heritage speaker HS linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language s HS outcomes display variation across a wide spectrum of differences as compared to each other other types of bilinguals as well as their monolingual peers Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields e g L1 acquisition adult L2 acquisition offering in addition to documenting and describing HS performance important insights for linguistic theory and challenges related to home minority language maintenance contact policy and more A birds eye view makes it clear that the methodologies one uses to tap into HSs linguistic knowledge areas if not more are important than the phenomena under investigation especially in light of how their unique experiences with their heritage and other languages are present across a continuum
