Fanny Herself-Original Edition(Annotated) Edna Ferber, 2020-08-09 You could not have lived a week in Winnebago without being aware of Mrs Brandeis. In a town of ten thousand where every one was a personality from Hen Cody the drayman in blue overalls magically transformed on Sunday mornings into a suave black broadcloth usher at the Congregational Church to A J Dawes who owned the waterworks before the city bought it Mrs Brandeis was a super personality. Winnebago did not know it. Winnebago buying its dolls and china and Battenberg braid and tinware and toys of Mrs Brandeis of Brandeis Bazaar realized vaguely that here was some one different. When you entered the long cool narrow store on Elm Street Mrs Brandeis herself came forward to serve you unless she already was busy with two customers. There were two clerks three if you count Aloysius the boy but to Mrs Brandeis belonged the privilege of docketing you first. A Hundred Acres of America Michael Hoberman, 2019 In *A Hundred Acres of America* The Geography of Jewish American Literary History Michael Hoberman introduces cultural geography as an alternative approach to the immigrant model Cultural geography allows Hoberman to restore Jewish American writers to their roles as important active members of the American literary landscape from the 1850s to the present and to argue that Jewish history American literary history and the inhabitation of American geography are and always have been contiguous entities *A Hundred Acres of America* makes its case by investigating both canonical and extra canonical literary depictions of six geographies the frontier the small town the urban the suburban America as seen from Europe and Israel as seen from America Hoberman reads dozens of representative texts closely and analyzes a wide range of authors from frontier era memoirists and turn of the century native born reformers to contemporary novelists He adroitly demonstrates that Jewish American authors are not only present throughout American literary history but actively shaped this history with writings that often subverted or contradicted the ways their non Jewish peers depicted these geographies
