John Schaufelberger, Len Holm, 2017-03-27 Unlike the majority of construction project management textbooks out there *Management of Construction Projects* takes a distinctive approach by setting itself in the context of a single and real world construction project throughout and also by looking at construction project management from the constructor's perspective. This project based learning approach emphasizes the skills, knowledge and techniques students require to become successful project managers. This second edition uses a brand new larger and more challenging case study to take students through key stages of the process including contracts and subcontracting, estimating, scheduling and planning, supply chain and materials management, cost control, quality and safety, project leadership and ethics and claims disputes and project close outs. Also new to this edition is coverage of emergent industry trends such as LEAN, LEED and BIM. The book contains essential features such as review questions, exercises and chapter summaries while example plans, schedules, contracts and other documents are stored on a companion website. Written in straightforward language from a constructor's perspective, this textbook gives a realistic overview and review of the roles of project managers and everything they need to know in order to see a successful project through from start to finish. Normal Instructor and Primary Plans, 1926 Mergers, Acquisitions, and Other Restructuring Activities Donald DePamphilis, 2013-10-01 In the seventh edition of *Mergers, Acquisitions and Other Restructuring Activities*, winner of a 2014 Textbook Excellence Award (Texty) from the Text and Academic Authors Association, Donald DePamphilis looks into the heart of current economic trends. In addition to a new chapter on the ways deals are financed, more than 85% of the 54 integrative case studies are new and involve transactions announced or completed since 2010. This new edition anchors its insights and conclusions in the most recent academic research with references to more than 170 empirical studies published in leading peer reviewed journals since 2010. Practical exhibits, case studies involving diverse transactions, easy to understand numerical examples and hundreds of discussion questions and practical exercises are included. This substantially updated content, supplemented by questions from CFA Institute examinations, offers the only comprehensive exploration of today's business transactions. Mergers, acquisitions and restructuring transactions reveal the inner workings of our economy. This longstanding award winning treatment lays out what every student and professional should understand about their parts, what they are intended to accomplish and what their competitive, strategic and value consequences are. Winner of a 2014 Texty Award from the Text and Academic Authors Association. Includes up to date and notable transactions: Facebook's takeover of Instagram and LinkedIn's IPO and regulations: Dodd-Frank Act of 2010 and JOBS Act of 2012. Covers recent trends: emerging country acquirers in global M&As and tactics, top up options and cash rich split offs. Additional content available online. **Resources in Education**, 1993-07 *Normal Instructor and Teachers World*, 1924 **Advances in Quantitative Remote Sensing in China - In Memory of Prof. Xiaowen Li** Shunlin Liang, Guangjian Yan, Jiancheng Shi, 2019-03-07 Quantitative land remote sensing has recently advanced dramatically, particularly in China.
