suggest combining both educational reform and social reform Without a strong foundation in literacy children are all too often denied access to a rich and diverse curriculum Reading and writing are passports to achievement in many other curricular areas and literacy education plays an important role in moving people out of poverty toward greater self sufficiency post graduation Schools and home environments share responsibility for literacy skill development in school literacy equals the acquisition of reading and writing skills but it is also a social practice key to social mobility The achievement gap between low income middle class and upper middle class students illustrates the power of socioeconomic factors outside school This book was originally published as two special issues of Reading Writing Quarterly Overcoming Learning Difficulties *Racially and Ethnically Diverse Women Leading Education* Terri N.
