**Power, Networks and Violent Conflict in Central Asia** Idil Tunçer-Kılavuz, 2014-06-27 When the five Central Asian republics gained independence from the Soviet Union in 1991 expectations of violent conflict were widespread Indeed the country of Tajikistan suffered a five year civil war from 1992 to 1997 The factors that the literature on civil wars in general and on the Tajikistan civil war in particular cites as the causes of war were also present in Uzbekistan but this country had a peaceful transition Examining this empirical puzzle by isolating the crucial factors that caused war to break out in Tajikistan but not Uzbekistan this book applies a powerful comparative approach to the broader question of why civil wars occur Based on fieldwork in both countries it challenges many common explanations of civil war both generally and in Tajikistan in particular This includes highlighting the importance of elites power perceptions which have their origins in the interaction of structural process and network related variables Without examining these interactions macro structural explanations alone cannot explain the occurrence of civil war in one country and its absence in another Applying the insights of bargaining theories of war from the literature on international relations to the civil war in Tajikistan this book will be of interest to students of violent conflict civil wars Central Asia and Asian Politics

*Why?* Charles Tilly, 2006 *Why?* is a book about the explanations we give and how we give them a fascinating look at the way the reasons we offer every day are dictated by and help constitute social relationships Written in an easy to read style by distinguished social historian Charles Tilly the book explores the manner in which people claim establish negotiate repair rework or terminate relations with others through the reasons they give Tilly examines a number of different types of reason giving For example he shows how an air traffic controller would explain the near miss of two aircraft in several different ways depending upon the intended audience for an acquaintance at a cocktail party he might shrug it off by saying This happens all the time or offer a chatty colloquial rendition of what transpired for a colleague at work he would venture a longer more technical explanation and for a formal report for his division head he would provide an exhaustive detailed account Tilly demonstrates that reasons fall into four different categories Convention I'm sorry I spilled my coffee I'm such a klutz Narratives My friend betrayed me because she was jealous of my sister Technical cause effect accounts A short circuit in the ignition system caused the engine rotors to fail

Codes or workplace jargon We can't turn over the records We're bound by statute 369 Tilly illustrates his topic by showing how a variety of people gave reasons for the 9/11 attacks He also demonstrates how those who work with one sort of reason frequently convert it into another sort For example a doctor might understand an illness using the technical language of biochemistry but explain it to his patient who knows nothing of biochemistry by using conventions and stories Replete with sparkling anecdotes about everyday social experiences including the author's own Why makes the case for stories as one of the great human inventions Collective Violence, Contentious Politics, and Social Change Ernesto Castañeda, Cathy Schneider, 2017-05-08 Charles Tilly is among the most influential American sociologists of the last century For the first time his pathbreaking work on a wide array of topics is available in one comprehensive reader This manageable and readable volume brings together many highlights of Tilly's large and important oeuvre covering his contribution to the following areas revolutions and social change war state making and organized crime democratization durable inequality political violence migration race and ethnicity narratives and explanations The book connects Tilly's work on large scale social processes such as nation building and war to his work on micro processes such as racial and gender discrimination It includes selections from some of Tilly's earliest influential and out of print writings including *The Vendue* *Coercion Capital* and *European States* the classic *War Making and State Making as Organized Crime* and his more recent and lesser known work including that on durable inequality democracy poverty economic development and migration Together the collection reveals Tilly's complex compelling and distinctive vision and helps place the contentious politics approach Tilly pioneered with Sidney Tarrow and Doug McAdam into broader context The editors abridge key texts and in their introductory essay situate them within Tilly's larger opus and contemporary intellectual debates The chapters serve as guideposts for those who wish to study his work in greater depth or use his methodology to examine the pressing issues of our time Read together they provide a road map of Tilly's work and his contribution to the fields of sociology political science history and international studies This book belongs in the classroom and in the library of social scientists political analysts cultural critics and activists Forthcoming Books
