**Exploitive No Limit Holdem** Paul Ratchford, 2014-06-26 Discover the secrets of Paul Ratchford's incredible winrate as he shares his unique ideology and more importantly shows you how to apply those strategies to improve your own winrate. While this book is full of real world examples and applications the main objective is to deepen your understanding of NLHE so that you will continue to grow and adapt as a player long after you finish reading this book. *Exploitive No Limit Holdem* Paul Ratchford, My biggest strength at the poker table is my ability to adapt in real time to my opponents. *Exploitive No Limit Holdem* was written not just to help you understand advanced NLHE theory but more importantly to help you apply that knowledge exploitively at the poker table. I focus more on the attacking side of poker than the defending side. In many ways I feel like a good defense will come naturally for those who have a good offense. If you understand how and why you are targeting an opponent you will also notice when you are the mark. When you finish reading this book I am confident that you will be a better player. Wherever possible I try to give you real world examples of the concepts I am discussing. Theory without applications is useless and I recognize that my readers need more than just theory to help them improve. Included in *Exploitive No Limit Holdem* is an extensive discussion of how to improve your red line, the mental game, math, expected value, game theory and risk management. Very little in poker is solved and that makes teaching the game challenging. *Exploitive No Limit Holdem* focuses not only on how to fix leaks in your game and attack opponents' weaknesses but also on how you can keep growing as a player after reading this book. *Exploitive No Limit Holdem* can help you deepen your understanding of No Limit Holdem which will enable you to adapt and stay profitable in a dynamic and rapidly changing industry like poker.

Exploitative Play in Live Poker Alexander Fitzgerald, 2018-11-19 Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless there are numerous situations where even very experienced players behave in predictable ways. These deeply ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance; you have to make them happen. *Exploitative Play in Live Poker* is a ground breaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this you will need to put to one side starting hand charts, balance and GTO. Game Theory Optimal play. Instead you will incorporate new concepts that may well place you outside your comfort zone. However your style will now be forcing the other players at the table outside of their comfort zone and unlike you they won't know how to adapt. Learn how to Counter the auto continuation bettor. Develop a powerful donk betting strategy. Use the overbet, the check raise and the three barrel effectively. As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1 000 professional poker players in 60 countries. As part of this work he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play especially when placed under pressure and forced into unfamiliar situations.
