Free Will And Will To Power Mike Hockney:

Free Will and Will to Power Mike Hockney, 2014-12-19 Are you free or are you a machine that suffers from a delusion that it's free Free will is perhaps the most important subject of all because if we are authentically free scientific materialism is ipso facto false and the world is in urgent need of a revolutionary paradigm shift This book shows that free will has a most unexpected advocate mathematics Only in a mathematical universe can we be free Only in a mathematical universe can we have a soul And in a mathematical universe free will is much better understood as will to power and to have an intimate connection with cosmic symmetry and God It's all in the math

The Sam Harris Delusion Mike Hockney, 2015-03-31 There are two kinds of intellectual Philosophers and Sophists The former seek the absolute truth while the latter seek the practical truth that brings them worldly prestige and success The weak minded are far more influenced by Sophists than Philosophers to the severe detriment of the intellectual progress of humanity Philosophers have a position based on rationalism idealism metaphysics and mathematics while Sophists hold a position reflecting empiricism materialism physics and science One of the most prominent Sophists in today's world is Sam Harris an American controversialist who supports scientism atheism and the claim that free will is illusory All of his positions are closely connected and the purpose of this book is to expose the fallacies that lie at the heart of the Sophists worldview and Harris's in particular Ultimately the difference between Philosophy and Sophistry reduces to the difference between mathematics and science and how each relates to ultimate reality

Ontics Mike Hockney, The New Way Is there a better way of doing physics that retains the best of current physics while going far beyond it Physics is currently based on the claim and claim it most certainly is that physics deals with something real let's call that real thing matter though there is no ontological definition of matter and it can be somehow analyzed by an unreal manmade abstraction namely mathematics But what happens if you accept a different assertion one that makes mathematics not an abstraction but a concrete reality an ontology As soon as you make mathematics real you cast doubt on the reality of matter But do we need to make a definitive choice Why not operate both systems one based on mathematics as real and one based on matter as real and then try to find a way to synthesize these different views Kant with his transcendental idealism sought to reconcile empiricism and rationalism Ontics seeks to reconcile the empiricism of materialism and the rationalism of mathematics Ontics via ontological mathematics gives mind a reality that is entirely absent in materialism So with science on the one hand and ontological mathematics on the other hand body and soul matter and mind can start to be brought together into a single system Isn't explaining mind science's biggest challenge Ontological mathematics provides that exact capacity Isn't it time for the ultimate paradigm shift Isn't it time for an intellectual revolution for a true age of reason

The God Game Mike Hockney, 2013-09-30 What is the answer to everything Pythagoras provided a glimpse of the answer 2 500 years ago when he declared All things are numbers Mathematics is literally everything Unlike science mathematics offers certainty and absolute knowledge Mathematics unifies

science religion and metaphysics and is the true Grand Unified Theory of Everything No experiment can ever contradict a mathematical truth Mathematics is the ONLY answer to everything Mathematics is the ONLY subject inherently about eternal Platonic truth The God Series starting with The God Game reveals the astonishing power of ontological mathematics to account for everything Isn't it time to convert to the world's only rational religion Illuminism the Pythagorean religion of mathematics that infallibly explains all things and guarantees everyone a soul that's not only eternal and indestructible but also has the capacity to make each of us a true God Isn't it time to become Illuminated The God Series is what God ought to have delivered to humanity rather than the Bible Knowledge rather than faith Truth rather than fantasy The Cultivator & Country Gentleman ,1883 **New Statesman** ,2009 **Private Eye** ,1977 Art Fair Guide ,1991 *The British Journal of Photography* ,1992 The New Yorker ,2002 *The New Music Record Guide* Ira Robbins,1987 **The New York Times Index** ,1999 BBC Music Magazine ,1996 *The Video Librarian* ,1993 **Makers of Modern Culture** Justin Wintle,1981 This volume provides lively and clearly written expositions of those figures who have done most to shape our views in the period since 1914 Music cinema drama art fiction poetry and philosophy are just some of the fields covered

Library Journal ,1978 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately British Humanities Index ,2008 **Portfolio** ,1981 **Publishers Weekly** ,1985 **Books in Print** ,1991
