

Schema User Guide

This is the administrative office that should be contacted to obtain additional information about the FinCEN SAR. There must be only one occurrence of this party for each FinCEN SAR Activity in the batch. This party corresponds with Part IV (Items 93-94) of the FinCEN SAR.

LE Contact Agency (if any)

This is the law enforcement agency (if any) that has been informed of the suspicious activity. There may only be one occurrence of this party for each FinCEN SAR Activity in the batch. This party corresponds with Part IV (Item 89) of the FinCEN SAR.

LE Contact Name (if any)

This is the person at law enforcement agency (if any) contacted regarding the suspicious activity. There may only be one occurrence of this party for each FinCEN SAR Activity in the batch. This party corresponds with Part IV (Items 90-92) of the FinCEN SAR.

Financial Institution Where Activity Occurred (Required)

This is the financial institution where the suspicious activity occurred. There must be at least one occurrence (not to exceed 99) of this party for each FinCEN SAR Activity in the batch. This party corresponds with Part III (Items 51-67, 69a). If a branch location associated with the financial institution where activity occurred is also involved, information about the branch should be recorded in a separate party element under the parent element <PartyAssociation> (see PartyAssociation below).

Branch Where Activity Occurred (if any)

This is the branch location where activity occurred. A branch is a location (such as an office or ATM) owned by the financial institution but located separately from the financial institution's headquarters. Generally, a branch operates under the same TIN as the financial institution. No more than 99 branches may be recorded for each FinCEN SAR in the batch. This party corresponds with Part III (Items 68-74) of the FinCEN SAR.

Subject (Required)

This is the subject involved in the suspicious activity. There must be at least one occurrence (not to exceed 999) of this party for each FinCEN SAR Activity in the batch. This party corresponds with Part I (Items 3-28) of the FinCEN SAR. Persons who are victims of the suspicious activity are not subjects and should not be recorded for this party. Victim information, if necessary for a complete description of the suspicious activity, should be recorded in the narrative. If the subject is or all subjects are unknown, record a single party for the subject with "all critical subject information unavailable" indicated and record the nature of the unknown subject(s) in the narrative. If the suspicious activity involves known and unknown subjects, record a separate party for each known subject and record the nature of the unknown subject(s) in the narrative (when there are known subjects involved, do not include a party element for unknown subjects.).

Altova® XMLSpy® 2011 User & Reference Manual, 2010 *Altova® SchemaAgent 2005 User & Reference Manual*
Altova, 2005 *Altova® XMLSpy® 2013 User & Reference Manual*, *InfoWorld*, 1994-09-26 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Tax Reporting by Digital Platforms under DAC7** Juan Manuel Vazquez, 2025-08-18 In early 2021 the European Union EU introduced a standardized tax reporting requirement for digital platforms through a Council Directive known as DAC7 The rules introduced by this Directive require third party operators of digital platforms to systematically collect verify store and report specific personal and transactional data about platform sellers to the tax authorities of the Member States This data is then automatically exchanged between tax authorities While DAC7 rules for digital platforms pursue a worthy goal e g combating tax evasion which at first glance would justify a public intrusion into the private sphere of both platform sellers and third party platform operators a key question that arises is whether such intrusion does not exceed what is necessary in the public interest This essentially concerns a matter of means and ends or in other words of proportionality This book provides a comprehensive and in depth assessment of the proportionality of DAC7 rules for digital platforms It examines whether these rules are aligned with the general EU law principle of proportionality from both a policy and legal perspective and when this is not the case it identifies potential improvements that could be made to ensure such alignment Issues and topics covered by the book include the following an overview of the platform economy its EU regulatory landscape and its tax compliance implications an explanation of the tax information reporting rules for digital platforms under DAC7 and the OECD Model Rules with practical examples an analysis of the EU law principle of proportionality and its requirements both at the policy and legal levels an assessment of DAC7 s consistency with the proportionality principle and recommendations for improving DAC7 rules for digital platforms In its comprehensive systematic and in depth proportionality assessment of DAC7 rules for digital platforms this book will help policymakers and citizens navigate these rules their practical application and their policy and legal implications *International Taxation of Cloud Computing*
Alexander Weisser, 2020-10-07 Cloud computing may be borderless but taxes are territorial It is easy to imagine how the two concepts can clash Much effort has gone into harmonizing tax rules across borders with the result that many jurisdictions have very similar tax rules Even so taxation remains a basic expression of national sovereignty The goal of this thesis is to examine how international tax law applies to the cross border cloud computing business Both multinational providers and customers of cloud computing services are analyzed Reflecting three traditional areas of international tax scholarship the goal could be stated in three questions Which jurisdictions have the right to tax What kinds of cloud computing transactions can be taxed What amount of the profit is taxable In more technical terms this means enquiring into how the use of cloud computing affects the permanent establishment status of taxpayers how the different kinds of cloud computing transactions

are characterized under international double taxation treaties and how the calculation of taxable cloud computing profit is affected by transfer pricing In light of the current political events the thesis also offers recommendations de lege lata through a systematic approach Its first part assesses the current taxation of cloud computing The second part evaluates whether the findings of this initial assessment conform to various superior principles of good rulemaking It identifies which of the present tax rules ought to be adapted The final part considers how the rules could be amended to become more compliant with the superior principles In this way Part I embodies the thesis Part II the antithesis and Part III seeks a synthesis
