 occasional writings from 1910 to the end of 1927 These important philosophical documents fill out the context in which the  
 early Heidegger wrote his major works and provide the background against which they appeared Accompanied by incisive  
 commentary these pieces from Heidegger s student days his early Freiburg period and the time of his Marburg lecture  
 courses will contribute substantially to rethinking the making and meaning of Being and Time The contents are of a depth  
 and quality that make this volume the collection for those interested in Heidegger s work prior to his masterwork The book  
 will also serve those concerned with Heidegger s relation to such figures as Aristotle Dilthey Husserl Jaspers and L with as  
 well as scholars whose interests are more topically centered on questions of history logic religion and truth Important in their
