Sustainable Intercultural Urbanism at the Service of the African City of Tomorrow is a valuable reference for researchers and practitioners interested in urban issues in African cities. These cities, in particular sub-Saharan cities, have long been excluded from any discourse on sustainable cities and urban planning. This book places the focus on these cities and acknowledges their varied urban realities. The intention is to spark a new debate on sustainable urban planning in African cities based on intercultural sustainable urbanism, which is key to thinking about and building ecological, intercultural, compact, intelligent, and postcolonial cities.
