

Surface Beading

Beading isn't difficult, but it is quite time-consuming. This painstaking work is well worth the effort, for it produces the ultimate in custom-designed glamour. There are many approaches to beading techniques. At its most basic, beading involves stitching each bead onto the cloth. Remember to knot your thread frequently. Some beaders knot between each individual bead.

Adhesive products are essential for extending the life of your beaded work. Go over the back side of your completed design and dab on some glue to really nail down your work and prevent it from unraveling. For flat-backed gems and rhinestones, sturdy glue is essential. Make sure the glue you select dries clear, adheres to a variety of materials, and has some give. Test your glue on a scrap of fabric with your design elements to ensure that the fabric and stones will not discolor.

Plan your design. Use your bra cup pattern piece to draw or trace a custom design. You can use this as a template and literally place your beads on the pattern piece to test your design. Take your pattern to your favorite bead shop. Practice with the beads they have available by laying them out on your sketched design.

Always buy extra beads. It is far better to have too many than too few and have to try to match a dye-lot. Having extra beads allows you to perform repairs or alterations on your costume in the future.

Use beaded fabric. The fastest way to bead the surface of your garment is to buy pre-sequined or pre-beaded fabric. Use your pattern to position the design perfectly on the bra. Before you trace and cut the design, take the time to glue down any loose threads and dab glue onto any knots.

Bead a pattern. One of the quickest ways to bead is to follow a pattern in woven or printed fabric, ribbon, or trim. Select a element of the design to highlight and then repeat the process throughout the design.

Use clip art. There are many clip art books available in bookstores, craft shops, and fine art stores. Look at a few of these clip art resources. These books are filled with floral or geometric patterns that can be interpreted in beads. You may want to check out the embroidery design section of your local craft store for even more ideas.
