Professions Education A Bridge to Quality McInyk and Fineout Overholt's book should be required reading in all graduate programs. Their text has provided a blueprint for the future of nursing practice and a rigorously substantiated and clearly described means for clinicians, educators, and administrators to participate in improving quality of care. Janet D. Allan, PhD, RN, FAAN, Dean and Professor, University of Maryland School of Nursing, Evidence-based Practice in Nursing Healthcare: A Guide to Best Practice has been instrumental in developing a culture of evidence-based practice at Barnes Jewish Hospital. It is fundamental to our curriculum provided to all levels of staff from new graduate nurses to the highest levels of hospital leadership. Dr. Patricia Potter, RN, PhD, FAAN; Dr. Gail Rea, RN, PhD, CNE; Dr. Karen Balakas, RN, PhD, CNE; Jennifer Williams, MSN, RN, ACNS-BC; Elizabeth Pratt, MSN, RN, ACNS-BC, Evidence Equals Excellence group at Barnes Jewish Hospital and Barnes Jewish School of Nursing at Goldfarb, Evidence-based Practice in Nursing Healthcare: A Guide to Best Practice is an exemplary text that spans the continuum of nursing evidence to support best practice. Utilizing this text with undergraduate RN to BSN and graduate nursing students, it is the ONLY text that demonstrates how to retrieve, read, and analyze evidence, whether it is published as an individual study, systematic review, meta-analysis, best practice guideline, or outcomes management report. Students learn how to utilize multiple complex databases and websites as they move through each chapter. And they experience dissemination of evidence through the development of presentations, publications, posters, and grants. This is truly a remarkable book that embraces evidence as the basis for nursing practice and patient-centered care and safety. Having used this text with more than 1000 students over the past five years, I can honestly say that I have found no other text that facilitates learning and development of clinical judgment that is grounded in valid, reliable, and applicable evidence. This is a keeper. Alice E. Dupler, JD, APRN, BC, Clinical Associate Professor, Washington State University College of Nursing. I have used the book since I developed the Evidence-based Practice course for our College of Nursing in Fall 2007. It was the first course of its kind at Indiana State University. It has been well received and the preferred course for all nursing graduate students for completion of their final scholarly projects. The text was essential in developing the course and provides the foundation and guidance that the students need to develop their Evidence-Based Practice projects. The students love the text. Susan Eley, PhD, RN, FNP, BC, Assistant Professor, Director, FNP Program, Indiana State University.
