Education in Singapore Yew-Jin Lee, 2022-04-06 This edited book is a comprehensive resource for understanding the history as well as the current status of educational practices in Singapore It is a one stop reference guide to education and educational issues concerns here There are three sections Part 1 provides a sectorial overview of how education has been organized in this country such as preschool special needs primary and secondary and adult education divisions In Part 2 contributors critically delve into issues and policies that are pertinent to understanding education here such as underachievement leadership language education assessment and meritocracy to question what Part 1 might have taken for granted Part 3 contains the largest number of contributors because it offers a scholarly examination into specific subject histories This section stands out because of the comparative rarity of its subject matter history of Physical Education Art Music Geography Education etc in Singapore

Mathematics for Life and Work A Comparative Perspective on Mathematics to Inform Upper Secondary Reform in England OECD, 2024-11-05 Engagement and performance in mathematics at the upper secondary level have been the concern of successive governments in England This report was commissioned as part of the country's policy reflections for transforming how maths is viewed and experienced in England The report explores outcomes such as the share of students studying maths and performance across countries and how education systems internationally deliver mathematics in upper secondary It also examines factors shaping maths education including the expectations set by curricula student pathways cultural perceptions and the needs of the labour market and higher education

Mathematics Education in Singapore Tin Lam Toh, Berinderjeet Kaur, Eng Guan Tay, 2019-02-07 This book provides a one stop resource for mathematics educators policy makers and all who are interested in learning more about the why what and how of mathematics education in Singapore The content is organized according to three significant and closely interrelated components the Singapore mathematics curriculum mathematics teacher education and professional development and learners in Singapore mathematics classrooms Written by leading researchers with an intimate understanding of Singapore mathematics education this up to date book reports the latest trends in Singapore mathematics classrooms including mathematical modelling and problem solving in the real world context

Assessment,

Qualifications and Standards ,1997 **Reforms and Issues in School Mathematics in East Asia** ,2010-01-01

Worldwide efforts to improve students learning of mathematics have turned educational researchers attention to some high achieving education systems especially those in East Asia including Chinese Mainland Hong Kong Japan Singapore South Korea and Taiwan However there is much less sharing and learning of educational policy and practices that goes beyond one or two such high achieving education systems At this time when educational changes and reforms for improving students learning of mathematics are also underway within these high achieving education systems in East Asia it becomes timely and important for the world to learn why and how relevant changes take place across these selected education systems This book has put together a set of papers that individually presents issues on the changing mathematics curriculum and teacher education in the six high achieving education systems in East Asia Collectively the book extends beyond what we can learn about exemplary practices in individual education systems in East Asia It helps us develop a better understanding of the interplay between various measures for the pursuit of excellence in mathematics curriculum and teacher education on the one hand and the different system contexts on the other The intended readers of the book include education policy makers curriculum developers researchers teachers teacher educators and anyone else interested in school mathematics curriculum and teacher education

Education in the Global City Aaron Koh, Terence Chong, 2017-10-02 Education in the Global City examines education in Singapore through the critical lens of manufacturing The book brings together two disparate fields which inform each other education and the global city and the book s contributors analyse and critique the manufacturing of Singapore education and Singapore s global city formation The collection covers vocational education language policies Higher Education English education critical thinking sex education creativity and critical feminist scholarship Collectively the book pries open the ideology of the manufacturing education system and points out the tension between the nation and its ideologies and the global city aspirations It also asks how education contributes to and is shaped by the market realities of Singapore s global city ambitions which are at odds with the nationalistic local agenda and priorities of nation building In interrupting and speaking against the prevailing and narrow manufacturing of education for a teleological end in spite of Singapore s successful nation building this book is an important contribution to critical education scholarship This book was originally published as a special issue of Discourse Studies in the Cultural Politics of Education

Teacher Preparation and Professional Development in APEC Members : a Comparative Study Linda Darling-Hammond, 1995 **Technical Papers**
