## **Fail Fast Or Win Big The Start Up Plan For Starting Now:**

*Fail Fast Or Win Big*, 2018 Entrepreneurs have long been taught that to be successful they need to spend months perfecting a business plan and finding investors before they can finally launch their business. But with the marketplace changing at lightning speed, this notion is not only outdated, it's costly. There's no point to building a business in a bubble. Today's entrepreneurs must embrace the idea of failing fast. They need to connect with real customers and determine quickly whether their idea is worth pursuing, needs new direction, or should be abandoned altogether. *Fail Fast or Win Big* shows entrepreneurs how to create a rapid prototype of their product or service, develop a business model instead of a business plan, test it repeatedly with customers so they can spot failure early, continue to refine the model based on customer interactions, leverage their network and resources in order to run lean. The longer it takes to launch a company, the more changes there will have been in the marketplace. Featuring real-life examples of entrepreneurs who set out to fail fast and ended up winning big, this groundbreaking guide reveals how the right kind of risk can really pay off. [Fail Fast or Win Big](#) Bernhard Schroeder, 2015-02-18. With today's marketplace changing at lightning speed, how can entrepreneurs spend the traditional several months perfecting their business plans and finding investors before finally launching their business? They can't. Because the truth is, the longer they take to launch their company, the more changes there will be in the marketplace, causing their business to be outdated before it even begins. Today's entrepreneurs must avoid the temptation to play it safe and launch a business in a bubble. Instead, they need to embrace the idea of failing fast. Almost upon genesis of the idea, it is detrimental for the entrepreneur to connect with real customers and determine quickly whether their idea is worth pursuing, needs new direction, or should be abandoned altogether. In the groundbreaking tell-it-like-it-is *Fail Fast or Win Big*, entrepreneurs will learn how to create a rapid prototype of their product or service, develop a business model instead of a business plan, test it repeatedly with customers so they can spot failure early, continue to refine the model based on customer interactions, leverage their network and resources in order to run lean. Complete with real-life examples of entrepreneurs who set out to fail fast and ended up winning big, *Fail Fast or Win Big* is the business plan you didn't study in college. But just like the marketplace, those outdated concepts have changed too. [Summary: Fail Fast or Win Big](#) BusinessNews Publishing, 2016-07-20.
