The Moral Imperative of School Leadership

Michael Fullan, 2003-03-12 Fullan shows how moral leadership can reinvent the principalship and bring about large scale school improvement This is a masterfully crafted and accessible book by North America's foremost expert on change Thomas J Sergiovanni Lillian Radford Professor of Education Trinity University San Antonio TX Fullan challenges all who work in education to rethink the critical role of the principal as school leader in the current era of accountability With clarity and insight he offers a series of strategies to reshape the culture and context of leadership in schools to create learning communities where both students and teachers can excel Paul D Houston Executive Director American Association of School Administrators Once again the writing of Michael Fullan is a tour de force The Moral Imperative of School Leadership is a must read for those who want to make a difference Gerald N Tirozzi Executive Director National Association of Secondary School Principals The time has come to change the context of school leadership The role of the principal is pivotal to systemic school change That is the fundamental message of The Moral Imperative of School Leadership which extends the discussion begun in Fullan's earlier publication What's Worth Fighting for in the Principalship The author examines the moral purpose of school leadership and its critical role in changing the context in which the role is embedded In this bold step forward Fullan calls for principals to become agents as well as beneficiaries of the processes of school change In an effort to make the position more rewarding and exciting he shifts the principal's role from one of a site based superman or superwoman and recasts it as one in which principals figure prominently both within their school and within the larger school system that surrounds them Concepts explored in depth include Why changing the context should be the main agenda for the principalship Why barriers to the principalship exist Why the principal should be seen as the COO chief operating officer of a school Why the role of the principal should figure more prominently within the system What individuals and the system can do to transform school leadership to a powerful new force The challenge and moral imperative for today's principal is to lead system transformations to resolve the top down bottom up dilemma that exists in systemic change To end the exodus from the principalship and for great school leaders to evolve in large numbers the time to redefine the position is now
