**Language Learning for (Reasonably) Smart People** Andrew Peterson,2018-06-24 Where have all the smart people gone And more importantly Where have all the diligent and ambitious people gone Now one often sees books about language hacks learning a language while sleeping or through just talking to people Then there are the 12 steps to success this and master grammar by deconstructing it that gurus The truth is that language learning is not actually hard in the sense that one has to be smart to do it thus the title Reasonably smart is all we need to learn a language It doesn t have to be a chore either it can be fun But we have to do it seriously We have to put in the effort and put in the time It takes quite a bit of time But it is also achievable I think what language learners need is a book that clearly lays out how to learn a language properly without arbitrary shortcuts or absurd time frames and silly distractions I have learned a bunch of European as well as non European languages and in this book I share both my insights as well as those of other successful language learners and some of the relevant linguistic findings The book has three parts 1 Introduction The Method 2 Main Part All the steps learners need to take from beginning to end and a systematic discussion of all aspects of the language journey 3 Final Part Miscellaneous Problems 37 short chapters that deal with the details problems and frequently asked questions To make the book as useful as possible there are three example cases Spanish Russian and Japanese which in turn are similar to Italian Ukrainian and Chinese etc Many people want to learn Spanish Russian or Japanese or one of the languages from their language families like French or other Romance or Asian languages This way readers understand how language learning generally works and they receive a meta plan and a blueprint they can use for their purposes Finally the concrete cases serve to make the whole thing as clear and applicable as possible I have learned quite a few languages myself

I like doing it and with this book I want to help people who also want to do it      *Learn Any Language FAST! - the Ultimate Guide to Speed Up Your Language Learning Curve by Tricking Your Brain (Learn Spanish, French, German, Italian and More)* Dagny Taggart,2014-08-19 Are you thinking of learning a new language Yes you probably are Maybe you have formed a vague idea of what the learning process will imply and maybe it scares you off a bit You see when it comes to learning a new language we are ALL in the same game and yet most people don't realize it Most people don't even take the time to think HOW they can improve their tool box before actually approaching the new tongue Most people don't even know what the right way to learning a language is That's precisely why a large majority of the world's population who have embarked on such a tough task as learning a new tongue so desperately need to update their skill set first They aren't learning the right way they chunking things here and there And so I did back before I was introduced to the proper language learning strategies It took me time to learn those strategies It took me a lot of time and effort to incorporate the secrets that would ultimately shape my entire language learning process And now I'm willing to share those secrets with you Publisher description      **The Complete Guide to the Theory and Practice of Materials Development for Language Learning** Brian Tomlinson,Hitomi Masuhara,2017-06-16 The Complete Guide to the Theory and Practice of Materials Development for Language Learning provides undergraduate and graduate level students in applied linguistics and TESOL researchers materials developers and teachers with everything they need to know about the latest theory and practice of language learning materials development for all media The past two decades have seen historic change in the field of language learning materials development The four main drivers of that change include a shift in emphasis from materials for language teaching to language learning evidenced based development the huge increase in digital delivery technologies and the wedding of materials developed for the learning of English with those for other second or foreign languages Timely authoritative and global in scope this text represents the ideal resource for all those studying and working in the field of language learning      **Foreign Language Learning for Travelers** Adisa John,2023-09-04 Embark on a lifelong adventure of language acquisition with Foreign Language Learning for Travelers This comprehensive and inspiring guide takes you on a journey beyond the basics of language learning exploring how languages can enrich every aspect of your life and empower you to connect with people and cultures from around the world Have you ever wondered how language learning can continue to shape your life long after your travels end Foreign Language Learning for Travelers delves into the profound impact of multilingualism on your personal growth career opportunities and cultural enrichment Discover the joys of maintaining and improving your language skills post travel and learn how to inspire others to join you on this transformative journey Unlocking the Power of Language Learn how languages are not just tools for communication but windows into the hearts and minds of people from diverse backgrounds Explore the fascinating ways in which language is intrinsically tied to culture history and identity Gain insight into how language learning can deepen your understanding of the world and foster empathy
