Global Governance Development And Human Security The Challenge Of Poverty And Inequality:

Global Governance, Development and Human Security Caroline Thomas, 2000-09-20 This book argues that the global development and security agendas are merging No longer is the language of security confined within the straitjacket of the state and associated national security concerns The spotlight is shifting to the legitimate security concerns of human beings The book examines how development is promoted by global governance institutions and how this has impacted on human security in the 1990s Caroline Thomas focuses on the effects of trade finance and investment liberalisation on deepening inequality She explores different approaches for addressing the deepening inequality which threatens the economy at all levels from the household to the community to the global The book investigates reformist and transformist visions of the future and the contrasting policies tabled for their achievements Thomas argues that ultimately human security requires a different developmental strategy

Globalization, Difference, and Human Security Mustapha Kamal Pasha, 2013-10-23 Globalization Difference and Human Security seeks to advance critical human security studies by re framing the concept of human security in terms of the thematic of difference Drawing together a wide range of contributors the volume is framed among others around the following key questions What are the silences and erasures of advancing a critical human security alternative without making recognition of difference its central plank How do we rethink the complex interplay of human security and difference in distinct and varied spatial and cultural settings produced by global forces What is the nexus between human security and the broader field of global development What new challenges to Human Security and International Relations are produced with the rise of the post liberal or post secular subject In what ways releasing human security from identification with the territorial state helps reconceptualize culture How does Human Security serve as a subspecies of modern humanitarian thought or the latter reinforce imperial imaginaries and the structures of order and morality Is the pursuit of indigenous rights fundamentally counterpoised to the pursuit of human security What difference it might make to take the doings and beings of communities of subsistence rather than basic needs wealth seeking individuals as a point of departure in critical human security studies How does reconstruction bind post war and post disaster states and societies into the global capitalist democratic political structure
