Global Security Watch—Turkey Mustafa Kibaroglu, Aysegul Kibaroglu, 2009-03-05 There are a number of factors that elevate Turkey's status in the international arena and make it an important regional actor. As a longstanding member of the western world, a candidate country to the European Union, a staunch ally of the United States, and a frontline state in the fight against terrorism, Turkey plays a key yet often overlooked role in world affairs. Proper understanding of how decisions regarding foreign and security issues are being taken within the state apparatus in Turkey is crucially important, especially when unexpected developments take place. Mustafa and Aysegul Kibaroglu examine the issues that drive Turkish foreign policy decisions in this crucial region. This reference work chronicles the factors which have shaped the mindsets of the makers of Turkey's foreign and security policies from the foundation of the Republic in 1923. The authors provide not only meaningful explanations of past events but also useful insights into the current issues at the center of Turkish regional and foreign policies. They offer a concise overview of Turkish foreign policy and assess the position of the nation within the context of the war on terror, globalization, and more. Their narrative is supplemented by biographies of key decision makers, policies, and documents that illustrate the choices that comprise Turkey's past and present. *Iran and Turkey* Marianna Charountaki, 2018-03-30

The foreign policies of Turkey and Iran seem increasingly to dictate the course of events in the Middle East. More recently, and especially following the Syrian crisis, the spotlight has turned to these states' dynamic re-entry onto the political stage, revealing them as key players with an international role in efforts towards the balance of power across the region. This book traces the major determinants of Turkish and Iranian foreign policies and their influence on events in the Middle East. Based on an examination of these states' politics and policies since 1979 and using material gathered from interviews with leading political figures from Turkey, Iran, and the Kurdistan Region of Iraq, Marianna Charountaki offers fresh insights into how we understand the contemporary global order. Of particular importance, this book shows the effect of both external and internal factors on foreign policy and how the interaction between state and non-state actors informs political decisions. In placing these issues in a theoretical framework, Marianna Charountaki pioneers a new conceptual map within International Relations. An interdisciplinary study that provides a fresh new perspective, this book will be of particular interest to scholars of International Relations, Politics, Foreign Policy, Kurdish, and Middle East Studies.

The US Middle East Policy In Post 9/11 Era Mukhtar Ahmad Bhat, 2020-01-01 Middle East, the mother of civilisations, is one of the very few regions of global politics which have remained the hot spots and orbits around which the global power game revolved uninterruptedly. In beginning, it was due to its geopolitical location as it is at the crossroads and a trade link between big Asian, African, and European countries, turned the region into a trade hub. Then the life-changing discoveries of natural resources, particularly of oil and gas in the region, as well as the industrial revolution in other parts of the world, increased the strategic importance of the region at the global level. The adoption of policy of securing control over the resources

by global powers gave new shape to the political structure and configuration like disintegration of Ottoman Empire and creation of new political entities in the region In addition to that the break out of the First and Second World Wars creation of Israel as well as the emergence of the Cold War are such events that transformed the region into a battle ground for the global super powers which ended at the collapse of the USSR in 1992 and emergence of the US as the dominant global power No doubt after the emergence of uni polar global order the region saw a phase of peace and end of the war gaming on the part of the big powers but the US continued to dominate the regional political structure During the same period the region also experienced one of the toughest periods of inter state wars first the decade long Iraq Iran war and then the Iraqi invasion of Kuwait which added more fuel to the already increasing division and hatred among the regional countries
