Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism:

Globalization and Sovereignty Jean L. Cohen, 2012-08-02 This book examines the way in which globalisation has affected our thinking about sovereignty human rights law and legitimacy *The Oxford Handbook of International Law in Europe*, 2024-11-19 This handbook provides a comprehensive account of how international law is understood and practiced in Europe which is defined for the purposes of the book as Council of Europe countries in the past and in the present It is separated into parts covering Europe's values intellectual traditions and institutions as well as examinations of European countries and regions A diverse group of leading scholars and practitioners of international law are led by three overarching focus points the success and failures of the pacifying effect of international law the diversity of international legal experiences and traditions within Europe and the impact of European ideas on international law globally By examining these areas the book also analyses Europe's changing role in the world and the impact of global influences on the understanding of international law in European countries The book is a study of regionalism in international law but also a study of the impact of a region which at least historically has had an overwhelming influence on the development and interpretations of international law *The Oxford Handbook of the Theory of International Law* Anne Orford, Florian Hoffmann, Martin Clark, 2016-09-22 The Oxford Handbook of International Legal Theory provides an accessible and authoritative guide to the major thinkers concepts approaches and debates that have shaped contemporary international legal theory The Handbook features 48 original essays by leading international scholars from a wide range of traditions nationalities and perspectives reflecting the richness and diversity of this dynamic field The collection explores key questions and debates in international legal theory offers new intellectual histories for the discipline and provides fresh interpretations of significant historical figures texts and theoretical approaches It provides a much needed map of the field of international legal theory and a guide to the main themes and debates that have driven theoretical work in international law The Handbook will be an indispensable reference work for students scholars and practitioners seeking to gain an overview of current theoretical debates about the nature function foundations and future role of international law Research Handbook on Law and Technology Bartosz Brożek, Oliwia Kanevskaia, Przemysław Pałka, 2023-12-11 This thorough and incisive Research Handbook reconstructs the scholarly discourses surrounding the field of law and technology discussing the salient legal governance and societal problems stemming from the use of different technologies and how they should be treated under various legal frameworks This title contains one or more Open Access chapters Constitutional Change in the Contemporary Socialist World Ngoc Son Bui, 2020-07-24 After the collapse of the Soviet bloc there are only five socialist or communist countries left in the world China Cuba Laos North Korea and Vietnam which constitute about one quarter of the world's population Yet there is little scholarship on their constitutions These countries have seen varying socioeconomic changes in the decades since 1991 which have led in turn to constitutional changes This book will investigate from a comparative and interdisciplinary perspective

how and why the constitutional systems in these five countries have changed in the last three decades The book then breaks the constitutional changes down into four questions what are the substantive contents of constitutional change what are the functions what are the mechanisms and what are the driving forces These questions form a framework to process the changes the five countries have gone through such as making new constitutions amending current ones introducing more rights allowing citizens to engage in changes enacting legislation and defining the constitutional authority of the three state branches and their relationship with the Communist Party While all five countries have adapted their constitutional systems the degree mechanisms and influential factors are not identical and present considerable variations This book examines and explores these differences and how they developed Constitutional Change in the Contemporary Socialist World offers a comprehensive and holistic view of an understudied and overlooked area of constitutional law essential for anyone studying or working in law politics or policy

Climate Displacement Jamie Draper, 2023-11-07 Climate change is reshaping patterns of displacement around the world Extreme weather events destroy homes environmental degradation threatens the viability of livelihoods sea level rise and coastal erosion force communities to relocate and risks to food and resource security magnify the sources of political instability Climate displacement the displacement of people driven at least in part by the impacts of climate change is a pressing moral challenge that is incumbent upon us to address This book develops a political theory of climate displacement Most work on climate displacement has tended to take an idealized climate refugee as its focus But focusing on the figure of the climate refugee obscures the complexity and heterogeneity of climate displacement Instead this book takes the empirical dynamics of climate displacement as its starting point It examines the moral and political problems raised by the interaction of climate change and displacement in five domains community relocation territorial sovereignty labour migration refugee movement and internal displacement In each context climate displacement raises distinct questions which this book explores on their own terms At the same time this book treats climate displacement as a unified phenomenon by examining the overarching questions of responsibility and fairness that it raises The result is an empirically grounded political theory that both maps the conceptual terrain of climate displacement and charts a course for meeting the moral challenge that it raises

Civic Freedom in an Age of Diversity Dimitrios Karmis, Jocelyn Maclure, 2023-02-15 James Tully is one of the world's most influential political philosophers at work today Over the past thirty years first with *Strange Multiplicity* 1995 and more fully with *Public Philosophy in a New Key* 2008 and *On Global Citizenship* 2014 Tully has developed a distinctive approach to the study of political philosophy democracy and active citizenship for a deeply diverse world and a de-imperializing age *Civic Freedom in an Age of Diversity* explores elucidates and questions Tully's innovative approach methods and concepts providing both a critical assessment of Tully's public philosophy and an exemplification of the dialogues of reciprocal elucidation that are central to Tully's approach Since the role of public philosophy is to address public affairs the contributors consider public philosophy in the context of pressing issues and recent civic struggles such as

crises of democracy and citizenship in the Western world global citizenship civil disobedience and non violence Indigenous self determination nationalism and federalism in multinational states protest movements in Turkey and Quebec supranational belonging in the European Union struggles over equity in academia and environmental decontamination decolonization and cultural restoration in Akwesasne Offering a wide ranging analytical discussion of Tully s work by leading scholars from various fields of study with an extensive reply by Tully himself Civic Freedom in an Age of Diversity provides a rich perspective on the full extent of his contribution

Politics against Domination Ian Shapiro,2016-04-04 Ian Shapiro makes a compelling case that the purpose of politics should be to combat domination and he shows what this means in practice at home and abroad This is a major work of applied political theory a profound challenge to utopian visions and a guide to fundamental problems of justice and distribution

Constitutional Law, Religion and Equal Liberty Azin Tadjini,2019-09-19 During the 20th century many countries embarked on a process of constitutional secularization by which the role of religion gradually became limited Yet by the late 20th century and increasingly following the end of the Cold War this development began to be challenged This book examines the return of religion in constitutions through the concept of constitutional de secularization It places this phenomenon in the context of the constitutional memory of the countries in which it has taken place and critically examines it against the development and standards of constitutionalism as the prevailing constitutional legal and political theory Central to this analysis is the impact of constitutional de secularization on the regulation of equality in liberty that is both the regulation of constitutional rights and the scope for equality of those who are granted such rights The book argues that equal liberty forms an essential part of constitutionalism as a theory and that constitutionalism therefore entails a continuous development towards expanding it The first and second part of the book presents a conceptual framework for the study of constitutional de secularization The third part presents and analyses three cases of constitutional de secularization in Afghanistan Iran and Iraq The book will be of interest to researchers and policy makers interested in constitutional history and theory and the role of religion in law and its compatibility with human rights

Harvard Law Review ,2013 **The 2007 Randolph W. Thorer Symposium** ,2007 Globalization and Catholic Social Thought John Aloysius Coleman,William F. Ryan,2005 Contributors to this volume assess the meaning of globalization and the capacity of Catholic social thought to understand reform and guide it Current Law Index ,2007 Index to Legal Periodicals & Books ,2006 **Forms of Pluralism and Democratic Constitutionalism** Jean L. Cohen,Andrew

Arato,Astrid von Busekist,2018-09-25 The achievements of the democratic constitutional order have long been associated with the sovereign nation state Civic nationalist assumptions hold that social solidarity and social plurality are compatible offering a path to guarantees of individual rights social justice and tolerance for minority voices Yet today challenges to the liberal democratic sovereign nation state are proliferating on all levels from multinational corporations and international institutions to populist nationalisms and revanchist ethnic and religious movements Many critics see the nation state itself as

a tool of racial and economic exclusion and repression What other options are available for managing pluralism fostering self government furthering social justice and defending equality In this interdisciplinary volume a group of prominent international scholars considers alternative political formations to the nation state and their ability to preserve and expand the achievements of democratic constitutionalism in the twenty first century The book considers four different principles of organization federation subsidiarity status group legal pluralism and transnational corporate autonomy contrasts them with the unitary and centralized nation state and inquires into their capacity to deal with deep societal differences In essays that examine empire indigenous struggles corporate institutions forms of federalism and the complexities of political secularism anthropologists historians legal scholars political scientists and sociologists remind us that the sovereign nation state is not inevitable and that multinational and federal states need not privilege a particular group Forms of Pluralism and Democratic Constitutionalism helps us answer the crucial question of whether any of the alternatives might be better suited to core democratic principles

Sociological Abstracts Leo P. Chall,2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **alternative press index** ALTERNATIVE PRESS INDEX,2002

Globalization and Popular Sovereignty Adam Lupel,2009-09-11 This volume analyzes the impact of globalization on the concept of popular sovereignty and rethinks it for the transnational domain It explores how popular sovereignty has historically determined the form of democratic citizenship and how democratic citizenship and legitimacy can be conceived in the transnational sphere in the absence of a global sovereign order By inquiring into the new global context of popular sovereignty the book seeks to better understand the emerging structures of global governance and their potential for democratic legitimacy Lupel argues That the challenges of globalization necessitate a rethinking of the concept of popular sovereignty beyond the domain of the nation state That such a rethinking reveals a tension between the particularism of democratic legitimacy and the universalism of cosmopolitan politics Critical attention to the constitutive processes of global governance must become an integral part of democratic theory in the context of globalization and a transnational model of popular sovereignty provides the best resources for this purpose This book will be of interest to students and scholars of globalization democratic theory and international relations theory Rethinking the State in the Age of Globalisation Heinz-Gerhard Justenhoven,2003 Since Jean Bodin and Thomas Hobbes political theorists have depicted the state as sovereign because it holds preeminent authority over all the denizens belonging to its geographically defined territory From the Peace of Westphalia in 1648 until the beginning of World War I in 1914 the essential responsibilities ascribed to the sovereign state were maintaining internal and external security and promoting domestic prosperity This idea of the state in political theory is clearly inadequate to the realities of national governments and international relations at the

beginning of the twenty first century During the twentieth century the sovereign state as a reality and an idea has been variously challenged from without and within its borders Where will the state head in the age of globalisation Can Catholic political thinking contribute to an adequate concept of statehood and government A group of German and American scholars were asked to explore specific ways in which the intellectual traditions of Catholicism might help our effort to rethink the state The debate is guided by the conviction that these intellectual resources will prove valuable to political theorists as they work to revise our understanding of the state *Handbook on Global Constitutionalism* Anthony F. Lang, Jr.,Antje Wiener,2017-10-27 This Handbook introduces scholars and students to the history philosophy and evidence of global constitutionalism Contributors provide their insights from law politics international relations philosophy and history drawing on diverse frameworks and empirical data sets Across them all however is a recognition that the international order cannot be understood without an understanding of constitutional theory The Handbook will define this field of inquiry for the next generation by bringing together some of the leading contemporary scholars

Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has been apparent than ever. Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism Introduction

In today's digital age, the availability of Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared

to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books and manuals for download and embark on your journey of knowledge?

FAQs About Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism Books

1. Where can I buy Globalization And Sovereignty Rethinking Legality Legitimacy And Constitutionalism books?

Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers:

- Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
