

**2-1 Study Guide and Intervention****Inductive Reasoning and Conjecture**

**Making Conjectures** Inductive reasoning is reasoning that uses information from different examples to form a conclusion or statement called a **conjecture**.

**Example 1** Write a conjecture about the next number in the sequence 1, 3, 9, 27, 81.

*Look for a pattern:*

Each number is a power of 3.

$$1 \quad 3 \quad 9 \quad 27 \quad 81$$

$$3^0 \quad 3^1 \quad 3^2 \quad 3^3 \quad 3^4$$

*Conjecture:* The next number will be  $3^5$  or 243.

**Example 2** Write a conjecture about the number of small squares in the next figure.

*Look for a pattern:* The sides of the squares have measures 1, 2, and 3 units.

*Conjecture:* For the next figure, the side of the square will be 4 units, so the figure will have 16 small squares.

**Exercises**

Write a conjecture that describes the pattern in each sequence. Then use your conjecture to find the next item in the sequence.

1.  $-5, 10, -20, 40$  **Pattern:** Each number is  $-2$  times the previous number.  
**Conjecture:** The next number is  $-80$ .

2.  $1, 10, 100, 1000$  **Pattern:** Each number is 10 times the previous number.  
**Conjecture:** The next number is 10,000.

3.  $1, \frac{6}{5}, \frac{7}{5}, \frac{8}{5}$  **Pattern:** Each number is  $\frac{1}{5}$  more than the previous number.  
**Conjecture:** The next number is  $\frac{9}{5}$ .

Write a conjecture about each value or geometric relationship. 4–7. Sample answers are given.

4.  $A(-1, -1), B(2, 2), C(4, 4)$   
Points A, B, and C are collinear.

6.  $\angle ABC$  and  $\angle DBE$  are vertical angles.  
 $\angle ABC$  and  $\angle DBE$  are congruent.

5.  $\angle 1$  and  $\angle 2$  form a right angle.  
 $\angle 1$  and  $\angle 2$  are complementary.

7.  $\angle E$  and  $\angle F$  are right angles.  
 $\angle E$  and  $\angle F$  are congruent.

**El-Hi Textbooks and Serials in Print** ,2006      *Resources in Education* ,1994      **Social Workers' Desk Reference** ,2015-01-13 People all over the world are confronted by issues such as poverty a lack of access to quality education unaffordable and or inadequate housing and a lack of needed health and mental services on a daily basis Due to these issues there is a need for social workers who have access to relevant and timely scholarly materials in order to meet the needs of those facing these issues The social psychological and biological factors resulting from these issues determine the level of a person s mental health at any given point in time and it is necessary for social workers to continue to evolve and develop to the new faces and challenges of the times in order to adequately understand the effects of these issues In the first and second editions of the Social Workers Desk Reference the changes that were occurring in social work practice education and research were highlighted and focused upon This third edition continues in the same tradition and continues to respond to the changes occurring in society and how they are impacting the education research and practice of social work as a whole With 159 chapters collaboratively written by luminaries in the profession this third edition serves as a comprehensive guide to social work practice by providing the most recent conceptual knowledge and empirical evidence to aid in the understanding of the rapidly changing field of social work Each chapter is short and contains practical information in addition to websites and updated references Social work practitioners educators students and other allied professionals can utilize the Social Workers Desk Reference to gain interdisciplinary and interprofessional education practice and research

**The Social Sources of Financial Power** Leonard Seabrooke,2018-07-05 A state s financial power is built on the effect its credit property and tax policies have on ordinary people this is the key message of Leonard Seabrooke s comparative historical investigation which turns the spotlight away from elite financial actors and toward institutions that matter for the majority of citizens Seabrooke suggests that everyday contests between social groups and the state over how the economy should work determine the legitimacy of a state s financial and fiscal system Ideally he believes such contests compel a state to intervene on behalf of people below the median income level leading the state to broaden and deepen its domestic pool of capital while increasing its influence on international finance But to do so Seabrooke asserts a state must first challenge powerful interests that benefit from the concentration of financial wealth Seabrooke s novel constructivist approach is informed by economic sociology and the work of Max Weber This book demonstrates how domestic legitimacy influences the character of international financial orders It will interest all readers concerned with how best to transform state intervention
