Global Turning Points Mauro F. Guillén, Emilio Ontiveros, 2016-04-21 The second edition of this popular book offers an accessible yet sophisticated analysis of the game changing events and trends that are transforming the world beyond recognition For the first time in human history more people live in cities than in the countryside and greater numbers suffer from obesity than from hunger During the next few decades India will become the biggest country in terms of population China the largest in output and the United States the richest among the major economies on a per capita income basis Food and water shortages will likely become humankind s most important challenges With four new chapters on the rise of the global middle class the transformative power of technology institutions and the entrepreneurial spirit and the trials and tribulations of the financial system this book provides a thorough introduction to the challenges facing business and society in the twenty first century

The Global Turn Ulf Hedetoft, 2003 Persistent rumour has it that globalization is doing serious damage to the nation state at the present historical juncture Dramatic versions of the narrative even insist that the challenge of globalization to the nation state is so serious that this pivotal unit of the international system is in danger of disappearing In this book Ulf Hedetoft focuses attention on this Global National nexus in some of its many differing manifestations offering both theoretical historical and analytical thoughts and perspectives on a problem which increasingly dominates academic and public debates He argues that

it makes sense to talk about a Global Turn in international studies a change which might be as profound and consequential as the well known linguistic turn in the study of society and politics This does not mean that globalization spearheaded by the USA is ousting the nation state from the global scene In fact the global order needs nation states although their position will be radically different and their sovereignty except for a few cases without much substance Populist and romantic nationalism notwithstanding there is no going back to an earlier and more virginal state of national political or cultural history In this sense globalization is irreversible Whether we like it or not the Global Turn is here for good *Is COVID-19 a Global Turning Point? Ünay, Muzaffer Şenel, 2009 The explosion of new themes and working areas in social sciences in the aftermath of the Cold War stimulated the cultural turn of the previous decades and strengthened the position of the notion of civilization as a unit of analysis and locus of academic debate in the fields of history philosophy sociology political science and international relations Given the fabricated and standardized nature of recent literature on political economic and socio cultural aspects of globalization it is crystal clear that historically and philosophically enlightened works written from the perspective of civilizational transformation will provide the much needed sophistication to conventional social science analyses trying to elucidate the organizing principles of the global order This novel collection represents a path breaking work in the field of global civilizational studies by constituting an interdisciplinary and theoretically informed platform on which complex debates on the political economic socio cultural philosophical and ecological aspects of the global order could be conducted The editors Sadik Unay and Muzaffer Senel managed to gather a truly original collection of articles from some of the leading authorities and promising academics on the theme of global orders with special reference to a civilization transformation covering a wide spectrum in time and space from Antique Greece to the Islamic World from Europe to the US and from East Asian history to current globalizations Publisher's description **Detecting Turning Points in Global Economic Activity** Ursel Baumann, Ramón Gómez Salvador, Franz Seitz, 2019 Global Modeling and Discontinuous Change Gerald R.
