Research Handbook on Project Performance Vittal S. Anantatmula, Chakradhar Iyyunni, 2023-03-02 This engaging Research Handbook presents a fresh look at how to improve project performance for the project sponsor client and end user using a number of empirical research studies Focusing on project performance concepts and methods the Handbook provides a fresh look at successful project completions achieving project objectives on time or ahead of time project completion or delivering within budget Assembly West Point Association of Graduates (Organization), 1997 **Course-Based Undergraduate Research** Nancy H. Hensel, 2023-07-03 Co published with the Council on Undergraduate Research Undergraduate research has long been recognized as a high impact practice HIP but has unfortunately been offered only to juniors and seniors and to very few of them often in summer programs This book shows how to engage students in authentic research experiences built into the design of courses in the first two years thus making the experience available to a much greater number of students Research that is embedded in a course especially general education courses addresses the issue of how to expand undergraduate research to all students Research has shown that students who have early experiences in undergraduate research are more likely to pursue further research prior to and after graduation This is also an issue of social justice because it makes the benefits of undergraduate research available to students who must work during the academic year and in the summer It is widely accepted that the skills developed through undergraduate research help prepare students for their future careers The book addresses all aspects of the topic including What are appropriate expectations for research in the first two years How to design appropriate course based research for first and second year students How to mentor a class rather than individual students How students can disseminate the results of their research Possible citizen science projects appropriate for the first and second years Providing additional resources available to support course based research in the first two years Designed for faculty at four year and two year colleges and including examples from the sciences the social sciences and the humanities the strategies and methods described can be adapted to disciplines not specifically mentioned in the book Many faculty are hesitant to engage first and second year students in undergraduate research because they worry students don't know enough to conduct authentic research in their discipline because they worry about the time it will take to develop activities for these students and because they wonder how they can mentor a whole class of students doing research The authors have successfully dealt with these issues and provide examples of how it is done **The Work of Mathematics Teacher Educators** Kathleen Lynch-Davis, Robin L. Rider, 2015-10-01 Originally published in 2005 A major focus of teacher education is the development of preservice teachers However it should not be the only focus of those who work in teacher education Educating inservice teachers is equally important and the conversation among those involved in mathematics teacher education needs to include discussion of this group as well This conversation also highlights a need for professional development for teacher educators and research on the development of teacher

educators This monograph discusses issues in educating all of these groups of individuals in an effort to continue the conversation among those involved in mathematics teacher education *Statistics with Microsoft Excel* Beverly Jean Dretzke, Kenneth A. Heilman, 1998 On statistics with Excel **Interpersonal Communication** Richard West, Lynn H. Turner, 2022-11-14 With its unique skill building approach Interpersonal Communication provides students with the knowledge and practice they need to make effective choices as communicators in today's rapidly changing technologically advanced and diverse society Rather than telling students how to communicate authors Richard L West and Lynn H Turner integrate skill sets in each chapter so students can apply what they learn to their own lives Rich with current examples and coverage of technology social media and diversity this new Fifth Edition makes clear connections among theory skills and the situations we all encounter daily This title is accompanied by a complete teaching and learning package in SAGE Vantage an intuitive learning platform that integrates quality SAGE textbook content with assignable multimedia activities and auto graded assessments to drive student engagement and ensure accountability Unparalleled in its ease of use and built for dynamic teaching and learning Vantage offers customizable LMS integration and best in class support **Department of Transportation and Related Agencies Appropriations for Fiscal Year 2001** United States.
