Retrospective Assessment of Mental States in Litigation Robert I. Simon, Daniel W. Shuman, 2008-08-13 Why did the defendant do it Mental health professionals are asked to help courts answer this question To serve justice the law calls for evidence of the mental state at the time a crime is committed of suicide intent in civil litigation and of mental capacity in

contract litigation The law asks psychiatrists and psychologists to retrospectively determine mental states a daunting task made even more difficult by the passage of time the uncertain credibility of witnesses the paucity of collateral sources of information and often the death of the person in question This is the first book dedicated entirely to the retrospective assessment of mental states This fascinating book explores the role of the psychiatrist and psychologist as an expert witness in litigation in rendering a retrospective judgment of an individual's mental state Distinguished contributors apply their expertise in psychiatry psychology and the law to address the problems of retrospective assessment With the goal of developing guidelines for more accurate retrospective assessment of mental states they present topics such as Guidelines for conducting retrospective assessments in children and adults Guidelines for the retrospective assessment without benefit of direct examination Assessments of suicide cases in both civil and criminal litigation Psychological testing and interviewing techniques that may assist in retrospective assessment Methods and analysis to help clinicians and attorneys critically evaluate the search for truth about the past This remarkable book will prove indispensable for helping clinicians lawyers and judges better understand the complex and difficult process of retrospective reconstruction of mental states *Forensic Psychiatric Evidence* Julio Arboleda-Flórez, Christine Deynaka, 1999 **Expert Persons Or Expert Witnesses** King County Bar Association (Wash.). Continuing Legal Education, 1995 *Inside the Mind of Scott Peterson* Keith Russell Ablow, MD, 2005-12-27 The highly publicized Scott Peterson murder case captivated a public hungry for the answer to one question Why would a man with no known history of violent crime or mental illness and with a pretty wife about to give birth brutally murder her and his unborn son Forensic psychiatrist Keith Ablow's national media appearances including a groundbreaking interview on Oprah resulted in enormous public response saying that his theories about the spawning of a killer inside Peterson were the first that made sense to them Members of Scott's and Laci's families have also stated that his comments were the first that helped them understand what might have happened inside Scott's mind Inside the Mind of Scott Peterson takes readers into the psyche of a killer exploring How Scott Peterson's empathy for others was shattered by a three generation bloodline of childhood loss and abandonment Why an addiction to sex took root in Peterson's psyche Why Peterson's meeting Amber Frey while his wife was pregnant triggered the perfect psychological storm Clues to Peterson's guilt in his interviews with Gloria Gomez and Diane Sawyer What Peterson was probably thinking as he listened to testimony in court and received his death sentence Why Peterson could kill again if released Using contacts at the FBI and hiring private investigators and researchers Keith Ablow delves deeply into Scott Peterson's life story to answer the question How did an all American boy turn into a ruthless killer
