Flores,Jeffrey Roth,Barney Straus,2023-06-09 This newly updated and streamlined edition of Group Psychotherapy with Addicted Populations provides proven strategies for combating alcohol and drug addiction through group psychotherapy The interventions discussed in the book build on a foundation of addiction as an attachment disorder rooted in the understanding of addiction as a family disease An appreciation of group and organizational dynamics is used to address the complex experience of developmental trauma that underlies addiction Having identified the essential theoretical underpinnings of supporting recovery from addiction in Part One the second half of the book gives a thorough nuts and bolts description of constructing a psychotherapy group and engaging productively in the successive phases of its development from initiation of treatment to termination The book concludes with specific recommendations for group psychotherapists to increase their competence with groups deepen their appreciation of group and organizational dynamics and develop a community of support for their own well being These methods are important for psychotherapists working with addicted populations who are inexperienced with group psychotherapy as well as seasoned group psychotherapists wishing to enhance their work

Alcohol Problems and Alcoholism James E. Royce,1989 Balanced account of causes prevention and treatment of alcoholism **Older Americans Information Directory, 2002/03** Sedgwick,2002-06 **Courage to be Me--living with Alcoholism** ,1996 Al Anon s latest *Courage to Be Me* is a treasure trove of recovery stories specially written by and for Alateens Every teen living with an alcoholic recovering or not should read this book **Al-Anon Narratives** Grazyna Zajdow,2002-08-30 According to the author in Australia men drink alcohol as a mark of masculinity and women take care of drinking men as a part of normative femininity And while research on alcoholics and alcoholism is common very few studies

consider the lives of the women who are married to alcoholics Here Zajdow details and explores the lives of such women who belong to Al Anon where they may share their experiences and offer their stories in a nonthreatening and supportive environment The author presents the narratives of these women in the context of her analysis of the self help group to demonstrate how people construct and reconstruct their lives as coherent stories about themselves and to show how these self stories can be changed and reconceptualized within the context of the group Unique in its examination of self stories offered within a self help group this book challenges sociological knowledge about the way these mutual aid groups operate as communities of interest and help Zajdow begins by laying the groundwork through a discussion of the professional and lay discourses on women s relationships to alcoholic men She then provides the basis for using self stories to examine a group of people the individuals in the group and the behavior of the group in general A history of Al Anon as a self help group is also detailed and the author compares the Australian meetings to meetings in other parts of the world The stories themselves are then examined and discussed in terms of how they relate to group processes and individual change through Al Anon Tracing the way that these women move from a place of despair to one of hope and meaningful change this also represents a sociological exploration of gender families and communities
