Fractured Identities Changing Patterns Inequality:

Fractured Identities Harriet Bradley,1996 *Understanding Inequalities* Lucinda Platt,2017-04-21 Bringing together the latest empirical evidence with a discussion of sociological debates surrounding inequality this book explores a broad range of inequalities in people s lives As well as treating the core sociological topics of class ethnicity and gender it examines how inequalities are experienced across a variety of settings including education health geography and housing income and wealth and how they cumulate across the life course Richly illustrated with graphs and figures showing the extent of inequalities and the differences between social groups the book demonstrates how people s lives are structured by inequalities across multiple dimensions of their lives Throughout the text pays attention to how we know what we know about inequality what is measured and how what is left out of the picture and what implications this has for our understanding of specific inequalities Importantly the book also highlights the intersections between different sources or forms of inequality and the ways that bringing an intersectional lens to bear on topics can highlight and challenge the assumptions about how they operate Designed for second year undergraduates and above this book provides an engaging overview of social stratification and challenges readers to think about how inequalities are embedded across society *Success in Sociology: AS Student Book AQA* Peter Covington,2008-04 Sociology teachers exercise immense teaching and pedagogical skills to entertain and motivate the generation of post 16 sociology students This title seeks to develop a teaching and learning package to support teachers *Identity and Agency in England, 1500-1800* J. Barry,H. French,2004-11-23 This collection of essays is arranged around the central issue raised by a raft of new empirical research the relationship between social identity or the vision of the self and the ways in which this can explain historical agency If identities in early modern society were multiple complex and dependent on context rather than homogenous consistent or easily determined then it is difficult to make simple causal links to behaviour This collection aims to make innovative new research on the structures of English society available to the wider scholarly audience The essays use a number of detailed contextual case studies to explore the twin themes of the nature of identities in early modern society and their role in influencing historical agency They examine the variety of identities available to individuals in early modern England and the ways in which these were invoked and employed *Class in Contemporary Britain* Kenneth Roberts,2011-02-15 Britain is one of the most unequal countries in the western world the richest one per cent own a vast proportion of the wealth while both the pay gap and spending habits remain incredibly divisive How do such divisions reflect contemporary ideas of class In what way does economic life affect individuals and social relationships What are the implications for society as a whole This thoroughly revised second edition of *Class in Contemporary Britain* uses class theory to interrogate and explain patterns and trends in economic inequalities and to explore their consequences from a sociological view Addressing and debating timely questions this new edition Assesses different ways of mapping class structures through class schemes Highlights the continued importance of class in

sociological study and analyses contemporary social class divisions Explores key topics including social mobility voting habits and education Reflects on recent changes and developments in the field from environmental and technological concerns to shifts in class demographics This comprehensive and accessible book disentangles the complex ties between economic social and political perspectives on class in contemporary Britain It is essential reading for all social sciences students who are studying class Unequal Relations Augie Fleras, Jean Leonard Elliott, 1999 Designed for courses in Race and Ethnic

Relations This introductory text comes at a time when the boundaries of being Canadian are being pushed to the limit by deep diversities The book begins with the assumption that race ethnic and Aboriginal interactions are relations in inequality It continues by emphasizing how these largely inequitable group relationships are constructed sustained challenged and modified by way of official policy and institutional practices It concludes by focusing on the politics of race ethnic and Aboriginal relations as they contribute to or detract from the challenge of Canadian society building *Social Stratification, Class, Race, and Gender in Sociological Perspective, Second Edition* David Grusky, 2019-09-05 The volume offers essential reading for undergraduates who need an introduction to the field for graduate students who wish to broaden their understanding of stratification research and for advanced scholars who seek a basic reference guide Although most of the selections are middle range theoretical pieces suitable for introductory courses the anthology also includes advanced contributions on the cutting edge of research The editor outlines a modified study plan for undergraduate students requiring a basic introduction to the field **Reconfiguring Identities and Building Territories in India and South Africa**

Philippe Gervais-Lambony, Frédéric Landy, Sophie Oldfield, 2005 Published in association with Centre de Sciences Humaines New Delhi Questions of territory space and identity are critically important in the international geopolitical context as well as central to contemporary research in the social sciences Processes connected with globalization have reconfigured identities and territories at multiple scales connecting and disconnecting places in complex ways and re enforcing old while producing new forms of segregation and polarisation Global processes meet the complex and locally specific South African and Indian geographies of inequality expressed at national regional and local scale In the South African case a political imperative to transform the legacies of racial inequality from colonial and apartheid rule underscores the centrality of racial identities However racial discourse and differentiation embodies and at times masks a complex mix of place based gender class and cultural identities expressed in a multi scalar politics of territory Over 50 years into independent rule Indian identity politics continues to build to a large extent on caste and the intricate ways in which caste affiliation merges with religious socio economic political and place based identities In both contexts the politics of identity and territory simultaneously unify and divide The spaces territories and identities re produced in the complex contexts in which the global national regional and local meet lie at the heart of the research from which the papers in this book have been generated The research investigated the reconfiguration of Indian and South African identities and territories through dialogue primarily between geographers

are jeopardizing the lives and livelihoods of women fish workers and their families *International Labour Documentation*
International Labour Office. Central Library and Documentation Branch, 1998 **Governing Change** Carol Johnson, 2000
Carol Johnson's *Governing Change* is a monograph covering political trends in Australia over the past decade. This new title in the UQP Australian Studies series complements Howard's *Agenda*. It investigates the changing style of government and politics in the final years of the twentieth century. Timed to coincide with introduction of GST Class Analysis and Social Transformation Michael Savage, 2000
Particular attention is paid to arguments developed by Beck and Giddens concerning individualization and he shows how the redrawing of individual relations is tied in to the remaking of social classes in complex and largely unrecognized ways. This book brings together recent empirical research on class and should be of interest to students of social science wishing to learn about the debates on class analysis. BOOK JACKET
