Framework Union Comparison Constitutions Classic:

The Framework of Union ,2015-07-11 Excerpt from The Framework of Union A Comparison of Some Union Constitutions
As this work has been prepared for and is published by the Closer Union Society the author feels that it is necessary to explain that the aim which underlies it is to provide a manual of reference to the Constitutions of other countries which have achieved Closer Union At first it was intended merely to bring up to date a manual prepared for the Convention of 1891 in Australia by Mr R C Baker now the Hon Sir R C Baker K C M G who very kindly gave permission for this to be done But it was found that conditions had altered so greatly since 1891 that a mere bringing up to date of Sir R C Baker s manual would scarcely serve the purpose required and the author therefore decided to incorporate only those parts of Sir R C Baker s work which will be found in Chapters II III and IV of Part II of this book As the book appears it has been composed with the sole idea of supplying at once some elementary knowledge and the necessary references for a far more complete knowledge of such parts of the achievements of other countries in the matter of Closer Union as appeared to be of practical use to South Africa The test of utility will explain some otherwise inexplicable omissions Thus nothing has been said of the American Executive and the Executive Department of Government generally receives far less attention than the other two great Departments Similarly the organization of the separate States is dealt with only in one confessedly inadequate chapter and the Constitution of Germany is hardly ever referred to These and other omissions are all due to the fact that the author has tried always to keep before him the single aim of utility for those who are studying the problem of Closer Union in South Africa About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Preferences and Procedures Torsten J. Selck, 2006-07-02 Preferences and Procedures presents and tests game theoretic models of European Union legislative decision making It is inspired by the idea of linking statistical testing strategies firmly to formal models of EU policymaking After describing salient features of the EU legislative process and comparing different models of how the EU negotiates new legislative measures the models predictive power is evaluated On a more general level Preferences and Procedures answers questions regarding the empirically recognizable effects of institutional arrangements on joint bargaining outcomes

Federalism in the European Union Elke Cloots, Geert De Baere, Stefan Sottiaux, 2012-09-03 This edited volume aims to reveal the Janus faced character of federalism in the European Union Federalism appears in two main forms in the EU On the one hand numerous formerly unitary Member States have embarked on a path towards a quasi federal governance structure On the other hand the EU itself is sometimes qualified as a federal system Significantly the concept of federalism has a very different even opposite connotation in both contexts When associated with Member State reform federalism is regarded as a technique for accommodating autonomy claims of sub state nations By contrast when federalism is used as a label for the EU itself it is conceived as a far reaching way of integrating the nations of Europe This dual appearance of federalism in the EU context is central to the structure of the book The first collection of essays addresses the question whether the EU may be described as a federal system and whether it can learn from existing federations In the second set of contributions the attention shifts to domestic federalisation processes more particularly to the impact of these processes on EU law and vice versa **Library Bulletin of the University of St. Andrews** University of St. Andrews, 1914 Bulletin ... ,1914
