Pazmiño, 2002-04-29 *Principles and Practices of Christian Education* shows teachers how they can use two important principles that stand behind all evangelical practices to make their education program stand out from all the others in its nurture of students First evangelical Christian education recognizes the need for conversion personal and corporate transformation that reconnects people to their Creator Second evangelical Christian education strives for connection making contact with people as unique individuals who live in a particular society and who need to know more about scripture In this book Christian education students learn that the work for which they prepare is a partnership with God to transform people Their central task is worship but through it and other activities they lead others to faith commitment and transformation of communities

Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy

education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism
