Measurement and Assessment in Education Cecil R. Reynolds, Ronald B. Livingston, Victor L. Willson, 2006 This text employs a somewhat traditional approach to the study of educational tests and measurement so that teachers will understand essential psychometric concepts and be able to apply them in the classroom The principles that guide the development of this text are 1 What essential knowledge and skills do classroom teachers need to conduct student assessments in a professional manner and 2 What does the research on educational assessment tell us This focus has resulted in a uniquely approachable but technically accurate presentation of the material While providing a slightly more technical presentation of the material than more basic texts this text is both approachable and comprehensive The text includes a gentle introduction to the basic mathematics of measurement and expands traditional coverage to include a thorough discussion of performance and portfolio assessments a complete presentation of assessment accommodations for students with disabilities and a practical discussion of professional best practices in educational measurement

Assessing Students with Special Needs John Venn, 2007 Known for its practical applied approach the fourth edition of John Venn s Assessing Student s with Special Needs continues to focus on how teachers can use assessment as a guide to instruction This noteworthy revision focuses on what teachers really need to know to include assessment in the curriculum Coverage includes all of the core information expected of an assessment text but the book goes far beyond the basics by addressing multicultural considerations technology and assessment high stakes testing and the reauthorization of IDEA The book clearly

shows how assessment is more than giving a test to a child but is an essential tool for teachers as they help students achieve learn develop and grow **Classroom Assessment** James H. McMillan, 1997 Arguing that student evaluation is an integral part of teaching this text is designed to provide teachers with a concise presentation of assessment principles which specifically relate to instruction and an overview of current research and new directions in the field of assessment
