Defending Same-Sex Marriage Martin Dupuis, William A. Thompson, Traci C. West, 2006-12-30 Today we find ourselves at a crossroads of two powerful unrelenting currents that are completely at odds with one another The movement for legal recognition of same sex unions has gone beyond the separate but equal status of civil unions to demand equality in marriage for all couples Progress is being made on many fronts mayoral action clergy officiating at same sex marriage and union ceremonies state legislative responses and street protests to name a few Meanwhile opposition to same sex marriage has also been gathering strength The struggle is sure to continue unabated for some time to come pitting those who believe in the traditional definition of marriage as a union between a man and a woman and who seek to codify this belief in the U S Constitution against those who find the basis for marriage between two loving committed individuals not only in the history of our civil rights legislation and court decisions but also in scripture and sacred religious traditions Those who believe in extending to same sex couples the 1 049 rights conferred by marriage as well as the supportive embrace of religious communities seek to strengthen the institution of marriage by making it inclusive and by passing laws and broadening doctrines to uphold marriage rights for all couples This three volume set clarifies the legal political religious cultural and social ramifications of same sex marriage for gay and lesbian couples and their families and friends and for the general public interested in the future of civil rights in the United States American Federalism and Individual Rights Stephanie

Mora Walls,2021-02-15 The protection of individual rights and the division of power between the national government and the states are core principles upon which American governance is built but how well do these concepts work together and to what extent could they be at cross purposes American Federalism and Individual Rights presents both of these founding concepts and explores their compatibility through policy specific studies including civil rights education marriage equality and physician assisted death Written for anyone interested in American politics the author presents all of the foundational information one would need to make their own assessment of how federalism works to either promote or undermine the protection of the individual in these policy areas along with suggestions for further study *Tunisian Women's Writing in French* Sonia Alba,2018-11-21 Tunisian women s literary production in French published or set between the years 1987 and 2011 from Tunisia s second president Zine El Abidine Ben Ali s rise to power to the eve of the Tunisian Revolution reveals the role of women their political engagement and their resistance to patriarchal oppression A great deal of media and scholarly attention has focused on the role of women during the Tunisian Revolution itself yet few studies have considered women s literary and active engagement prior to the uprising By contrast this book focuses specifically on the time period leading to the Revolution The book is structured around three chapters each focusing on a different form of writing and on a number of contemporary Tunisian writers who have chosen to express themselves in French Sonia Alba explores the complex ways in which the authors have attempted to deal with those issues cultural social and political most relevant to them This is the first study of Tunisian women s writing in French to compare and contrast key themes in three different genres within a single study and within the conceptual framework of subaltern counterpublics The work is enhanced by the inclusion of extracts from previously unpublished authors interviews Tunisian Women s Writing in French is essential reading for all Francophone and Postcolonial scholars and for scholars and students working in Contemporary Women s Writing **GOVT7** Edward I. Sidlow,Beth Henschen,2017 Real Democracy Frank M. Bryan,2010-03-15 Relying on an astounding collection of more than three decades of firsthand research Frank M Bryan examines one of the purest forms of American democracy the New England town meeting At these meetings usually held once a year all eligible citizens of the town may

become legislators they meet in face to face assemblies debate the issues on the agenda and vote on them And although these meetings are natural laboratories for democracy very few scholars have systematically investigated them A nationally recognized expert on this topic Bryan has now done just that Studying 1 500 town meetings in his home state of Vermont he and his students recorded a staggering amount of data about them 238 603 acts of participation by 63 140 citizens in 210 different towns Drawing on this evidence as well as on evocative witness accounts from casual observers to no lesser a light than Aleksandr Solzhenitsyn Bryan paints a vivid picture of how real democracy works Among the many fascinating questions he explores why attendance varies sharply with town size how citizens resolve conflicts in open forums and how men and women behave differently in town meetings In the end Bryan interprets this brand of local government to find evidence for its considerable staying power as the most authentic and meaningful form of direct democracy Giving us a rare glimpse into how democracy works in the real world Bryan presents here an unorthodox and definitive book on this most cherished of American institutions

Politics and Public Policy Donald C. Baumer, Carl E. Van Horn, 2013-07-09 Getting beyond the traditional policy cycle discussed in most textbooks the fully updated fourth edition of Politics and Public Policy offers a more comprehensive and realistic view of policymaking in the United States one that looks beyond the jockeying between presidents and members of Congress and explores the influence of corporate leaders interest groups bureaucrats judges and journalists The book explores six distinct yet connected policy domains Boardroom Politics decisions by business leaders and professionals Bureaucratic Politics rule making and adjudication by administrators Cloakroom Politics lawmaking by legislators Chief Executive Politics decision making by presidents governors mayors and their advisers Courtroom Politics rulings by judges and Living Room Politics opinions expressed through the mass media grassroots movements political activists and voters The authors unique framework prepares students to evaluate the strategies of various political actors within each domain
