

Efficiency, equity, and Legitimacy

- **Efficiency**--the ability of insurance to act as the lowest-cost method for achieving goals remains an open question
- **Equity**--A government can structure the program to target those most deserving
 - The often indirect method by which governments provide subsidies through insurance is inconsistent with efforts to target benefits to the deserving as traditionally defined.
 - Such is the case with the farmer that plants high risk crops.
- **Legitimacy**--Government insurance programs are typically rare in the U.S. and abroad, although the scope of the few programs that exist is large. The fact that the insured pay premiums help clarify legitimacy (vs. grant programs)

Boundaries of Contagion Evan S. Lieberman, 2009 Why have governments responded to the HIV AIDS

pandemic in such different ways During the past quarter century international agencies and donors have disseminated vast resources and a set of best practice recommendations to policymakers around the globe Yet the governments of developing countries in sub Saharan Africa Asia Latin America and the Caribbean continue to implement widely varying policies

Boundaries of Contagion is the first systematic comparative analysis of the politics of HIV AIDS The book explores the political challenges of responding to a stigmatized condition and identifies ethnic boundaries the formal and informal institutions that divide societies as a central influence on politics and policymaking Evan Lieberman examines the ways in which risk and social competition get mapped onto well institutionalized patterns of ethnic politics Where strong ethnic boundaries fragment societies into groups the politics of AIDS are more likely to involve blame and shame avoidance tactics against segments of the population In turn government leaders of such countries respond far less aggressively to the epidemic Lieberman s case studies of Brazil South Africa and India three developing countries that face significant AIDS epidemics are complemented by statistical analyses of the policy responses of Indian states and over seventy developing countries The studies conclude that varied patterns of ethnic competition shape how governments respond to this devastating problem The author considers the implications for governments and donors and the increasing tendency to identify social problems in ethnic terms
