regular curriculum with these units to challenge your more able primary grade math students With their ease of use clear
instruction and motivating topics these are the perfect enrichment activities for the regular math curriculum This book
contains four units that are structured so that students can easily develop an understanding of the topics on their own The
four topics are attribute pattern blocks tangrams sets and Venn diagrams and ancient Egyptian numbers Each unit provides
sequential activities that allow students to work through these motivating topics whether they are working by themselves in a
small group or in a whole class setting The units lend themselves easily to a math center arrangement with each student
having an individual folder and checklist to record his or her progress While they were designed to provide added challenge
for students who have mastered the regular curriculum some of the units can be used as supplements for whole class
instruction The emphasis in these units is on promoting thinking developing perseverance expanding students view of
mathematics enjoying a challenge and keeping math students actively involved and enthused about math This book will help
you provide students with opportunities to explore mathematical ideas in ways that promote their intellectual growth and
expand their views of mathematics This is one of a three book series For older students use Enrichment Units in Math Book 2
