Ensuring Quality in Cross-Border Higher Education Implementing the UNESCO/OECD Guidelines Vincent-Lancrin Stéphan, Fisher Dara, Pfotenhauer Sebastian, 2015-11-19 This book monitors the extent to which tertiary education stakeholders complied with the UNESCO OECD Guidelines for Quality Provision in Cross Border Higher Education in 2014

Ensuring Quality in Cross-Border Higher Education Staphan Vincent-Lancrin, Oecd, 2015-11-30 The increasing internationalisation of higher education is one of the most significant trends in higher education in the past decades International student mobility has more than doubled between 2000 and 2013 and nearly quadrupled since 1990 Crossborder higher education also increasingly takes different forms with more and more students choosing to enrol in a foreign tertiary education institution or programme in their home country In the past decade many countries have designed explicit internationalisation policies for their higher education systems acknowledging the benefits of international exposure to prepare students for a globalising economy as well as the many opportunities of cross border mobility for innovation improvement and capacity development in higher education and in the economy *Ensuring Quality in Cross-Border Higher Education* Staphan Vincent-Lancrin, 2015 Annotation This book monitors the extent to which tertiary education stakeholders complied with the UNESCO OECD Guidelines for Quality Provision in Cross Border Higher Education in 2014

Cross-Border Higher Education and Quality Assurance Maria João Rosa, Cláudia S. Sarrico, Orlanda Tavares, Alberto Amaral, 2016-07-26 This book analyses the range of potential measures national quality assurance agencies may have to employ to deal with the new issues caused by Cross Border Higher Education CBHE The expansion of CBHE raises quality problems which are currently assessed differently depending on the countries concerned This has been exacerbated by the growth of Massive Open Online Courses MOOCs which have developed very quickly and can be prone to rogue providers This book considers the steps that have already been taken to ensure quality as well as those ahead It is important that the swift growth of CBHE is not just seen as a means to increase the revenues of higher education institutions faced with decreasing public funding but also as a means to keep educational standards high **Quality Assurance and Accreditation in**

Distance Education and e-Learning Insung Jung, Colin Latchem, 2012-04-05 Quality assurance QA in open and distance learning ODL can be a contentious issue Some argue that it should be judged by the same criteria and methods as face to face education while others claim that it is so different in its organization enrolments and operations that conventional QA mechanisms cannot apply Some advocate the use of specific guidelines and standards for e learning others believe that regardless of the technology the basic principles of quality teaching and learning should apply Providers who have enjoyed freedom from external scrutiny may resist attempts at external regulation and auditing and look upon QA as yet another imposition of corporatization and bureaucracy on education Others see it as a means of establishing a culture of quality self reflection and self improvement There is little research based literature to guide policy makers managers and practitioners in

applying QA in education and training to ensure the right balance is found between accountability and autonomy as well as assuring quality for the time and costs involved In this respect Quality Assurance and Accreditation in Distance Education and e Learning is a book that is long overdue It explains what is involved in QA and accreditation in education It describes and analyzes applications of these practices in open distance dual mode and conventional universities throughout Europe North America Africa and the Asia Pacific looking at open schooling e learning in conventional schools non formal adult and community education and corporate and small to medium enterprises Quality Assurance and Accreditation in Distance Education and e Learning is edited and authored by experts with extensive international experience in ODL e learning and QA who give careful consideration to the possibilities and challenges involved The book will be an invaluable guide for all policy makers managers practitioners and researchers in the field
