The Skills Balancing Act in Sub-Saharan Africa Omar Arias, David K. Evans, Indhira Santos, 2019-01-31 Despite strong recent economic growth Sub Saharan Africa has levels of economic transformation poverty reduction and skill development far below those of other regions Smart investments in developing skills aligned with the policy goals of productivity growth inclusion and adaptability can help to accelerate the region's economic transformation in the 21st century Sub Saharan Africa's growing working age population presents a major opportunity to increase shared prosperity Countries in the region have invested heavily in building skills public expenditure on education increased sevenfold over the past 30 years and more children are in school today than ever before Yet systems for building skills in this population have fallen short and these shortcomings significantly impede economic prospects In half of the countries fewer than two in every three children complete primary school even fewer reach and complete higher levels of education Learning outcomes have been persistently poor leading to substantial gaps in basic cognitive skills literacy and numeracy among children young people and adults The literacy rate of the adult population is below 50 percent in many countries functional literacy and numeracy rates are even lower Systemwide change is required to achieve significant progress Multiple agencies at the central and local levels are involved in skills development

strategies making skills everyone's problem but no one's responsibility Policies and reforms need to build capacity for evidence based policies and create incentives to align the behaviors of all stakeholders with the pursuit of national skills development goals The Skills Balancing Act in Sub Saharan Africa Investing in Skills for Productivity Inclusivity and Adaptability lays out evidence to inform the policy choices that countries will make in skill investments Each chapter addresses a set of specific questions drawing on original analysis and synthesis of existing studies to explore key areas How the skills appropriate to each stage of the life cycle are acquired and what market and institutional failures affect skills formation What systems are needed for individuals to access these skills including family investments private sector institutions schools and other public programs How those systems can be strengthened How the most vulnerable individuals those who fall outside the standard systems and have missed critical building blocks in skills acquisition can be supported Countries will face trade offs often stark ones that will have distributional impacts and a bearing on their development path Committed leaders reform coalitions and well coordinated policies are essential for taking on the skills balancing act in Sub Saharan Africa

Le développement des compétences en Afrique subsaharienne, un exercice d'équilibre Omar Arias, David K. Evans, Indhira Santos, 2020-11-17

Malgré la forte croissance économique que l'Afrique subsaharienne a connue ces vingt dernières années les niveaux de transformation économique de réduction de la pauvreté et de développement des compétences dans cette partie du monde sont bien inférieurs ceux des autres régions Des investissements judicieux dans le développement des compétences en accord avec les objectifs politiques de croissance de la productivité d'inclusion et d'adaptabilité peuvent aider accélérer la transformation économique de la région subsaharienne au XXI^e siècle L'augmentation de la population en âge de travailler en Afrique subsaharienne constitue une réelle chance d'accroître la prospérité collective Les pays de la région ont investi massivement dans le développement des compétences les dépenses publiques consacrées à l'éducation ont été multipliées par sept au cours des 30 dernières années et le nombre d'enfants scolarisés est aujourd'hui plus élevé que jamais Pourtant les systèmes d'éducation de cette population n'ont pas donné les résultats escomptés et ces insuffisances entravent considérablement les perspectives économiques Dans la moitié des pays moins de deux enfants sur trois terminent l'école primaire et encore moins atteignent des niveaux supérieurs d'enseignement et obtiennent un diplôme Les acquis d'apprentissage demeurent faibles ce qui entraîne des lacunes dans les compétences cognitives de base telles que la lecture l'écriture et le calcul aussi bien chez les enfants les jeunes que les adultes Le taux d'alphabétisation de la population adulte est inférieur 50 % dans de nombreux pays la part des adultes sachant lire écrire et compter de manière fonctionnelle est encore plus faible Une réforme du système est nécessaire pour réaliser des progrès significatifs De multiples agences aux niveaux national et local sont impliquées dans les stratégies de développement des compétences faisant des compétences le problème de tous mais la responsabilité de personne Les politiques et les réformes doivent permettre de renforcer les capacités des politiques qui ont fait leurs preuves et d'instaurer des mesures incitatives visant à faire converger le comportement de tous les

acteurs dans la poursuite des objectifs de développement des compétences au niveau national Le développement des compétences en Afrique subsaharienne un exercice d'équilibre Investir dans les compétences pour la productivité l'inclusion et l'adaptabilité présente des données qui clarifieront les choix stratégiques des pays en matière d'investissements dans les compétences Chaque chapitre aborde un ensemble de questions spécifiques en s'appuyant sur une analyse originale et sur une synthèse des travaux existants pour explorer les domaines principaux comment les compétences appropriées chaque étape du cycle de vie sont-elles acquises et quelles défaillances du marché et des institutions affectent le développement des compétences quels systèmes sont nécessaires pour que les individus aient accès à ces compétences notamment les investissements consentis par les familles les institutions du secteur privé les écoles et autres programmes publics comment ces systèmes peuvent-ils être renforcés comment les personnes les plus vulnérables savoir celles qui ne font pas partie des systèmes standards et qui n'ont pas réussi à acquérir des compétences essentielles peuvent-elles être soutenues Les pays de la région seront souvent confrontés à des arbitrages difficiles qui auront des effets distributifs et influenceront sur leur trajectoire de développement Des dirigeants engagés des efforts conjoints de réforme et des politiques bien coordonnées sont essentiels pour aborder le délicat exercice d'équilibre que représente le développement des compétences en Afrique subsaharienne

Anti-Poverty Psychology Stuart C. Carr, 2013-02-01 Psychology has focused more on personalities in poverty pathologizing than on contexts for poverty reduction Pick Sirkin 2010 As a result the discipline has inadvertently sequestered and isolated itself and its potential contribution from poverty reduction initiatives globally and locally In recent years there have been major developments in both the scope and depth of psychological research on global development issues Some of the key developments include significant advances in understanding of what motivates teachers in schools on designing community interventions to promote health and on managing the development of human capacity in aid and development projects The Psychology of Poverty Reduction is poised to capture such advances in the understanding of what works and what does not *Social Research and Evaluation of Poverty Reduction Project* [REDACTED], 2013-02-28
