Environment, Media and Communication Anders Hansen, 2018-09-21 Media and communication processes are central to how we come to know about and make sense of our environment and to the ways in which environmental concerns are generated elaborated manipulated and contested The second edition of *Environment Media and Communication* builds on the first edition's framework for analysing and understanding media and communication roles in the politics of the environment It draws on the significant and continuing growth and advances in the field of environmental communication research to show the increasing diversification and complexity of environmental communication The book highlights the persistent urgency of analysing and understanding how communication about the environment is being influenced and manipulated with implications for how and indeed whether environmental challenges are being addressed and dealt with Since the first edition changes in media organisations news media and environmental journalism have continued apace but perhaps more significantly the media technologies and the media and communications landscape have evolved profoundly with the continued rise of digital and social media Such changes have gone hand in hand

with and often facilitated enabled and enhanced shifting balances of power in the politics of the environment There is thus a greater need than ever to analyse and understand the roles of mediated public communication about the environment and to ask critical questions about who what benefits and who what is adversely affected by such processes This book will be of interest to students in media communication studies geography environmental studies political science and sociology as well as to environmental professionals and activists

Environmental Debates in Albania Deniz Çupi,2023-09-30 This book investigates the role played by classical and digital media and social networks in shaping debates on the environment Providing a unique window of observation on environmental debates the book explores the media theatre from the post communist perspective of Albania The work navigates the creation and development of environmental debate in Albania using evidence based case studies investigating the role of actors involved who are closely related to the media such as in business or politics Environmental Debates in Albania offers an original insight on environmental debate which is closely tied to and influenced by the place and culture within which it originates Rich literature exists on global environmental issues protests policy and the rhetoric around climate change this book supplies another piece to the puzzle through its focus on the under researched area of environmental debate in post communist and Eastern European countries

African Media Space and Globalization Unwana Samuel Akpan,2023-08-24 This book surveys the African media industry examining various sections of the media at the elite level Drawing on contributors from diverse regions and media and communication disciplines the book provides definitive analyses of the switch from analogue to digital broadcasting in select African countries This timely and relevant collection of essays covers trending topics in communication and media studies as scholars globally continue to examine the impact of digital technology on media practice training and education The contributors offer rich perspectives on crucial issues blending practice and scholarship as former media practitioners and academics come together to fill a major gap in media practice and education in Africa This book is a must read for anyone interested in the intersection of globalization and African media

Correcting the Scholarly Record for Research Integrity M. V. Dougherty,2018-11-09 This volume is the first book length study on post publication responses to academic plagiarism in humanities disciplines It demonstrates that the correction of the scholarly literature for plagiarism is not a task for editors and publishers alone each member of the research community has an indispensable role in maintaining the integrity of the published literature in the aftermath of plagiarism If untreated academic plagiarism damages the integrity of the scholarly record corrupts the surrounding academic enterprise and creates inefficiencies across all levels of knowledge production By providing case studies from the

field of philosophy and related disciplines the volume exhibits that current post publication responses to academic plagiarism are insufficient It catalogues how humanities disciplines fall short in comparison with the natural and biomedical sciences for ensuring the integrity of the body of published research This volume provides clarity about how to conceptualize the scholarly record surveys the traditional methods for correcting it and argues for new interventions to improve the reliability of the body of published research The book is valuable not only to those in the field of philosophy and other humanities disciplines but also to those interested in research ethics meta science and the sociology of research

The Cultural Authority of Science Martin Bauer, Petra Pansegrau, Rajesh Shukla, 2018-09-24 The cultural authority of science is the authority that is granted to science in any particular context This authority is as much a matter of image and perceived legitimacy as of statutory guarantee However while authority can be charismatic based on tradition or based on competence we would assume that science aims to be an authority of competence To what extent does science have the last word or stand above opinion on public issues This Indo European led collaboration aims to map the cultural authority of science and to construct a system of indicators to observe this science culture based on artefacts science news analysis and espoused beliefs and evaluations public attitude data Indeed through a series of studies the authors examine the cultural authority of science in light of the challenges posed by European Asian African and American developments and debates In particular two main ideas are examined the Lighthouse model whereby science is shining into a stormy sea of ignorance and mistrust and the Bungee Jump model which demonstrates how science occasionally experiences a rough ride against a backdrop of goodwill Presenting expertise in discourse analysis computer assisted text analysis and largescale survey analysis The Cultural Authority of Science will be of interest to a global audience concerned with the standing of science in society In particular it may appeal to scholars and students of fields such as sociology of science science communication science studies scientometrics innovation studies and social psychology
